

## Prayer Of The Week - - -

The prayer this week is by Glenn Clark:  
 "As thou keepest the stars in their courses, so will thou guide our steps in perfect harmony, without clash or discord of any kind, if we but keep our trust in thee.

"We know thou wilt keep him in perfect peace whose mind is stayed on thee, because he trusteth in thee. We know that, if we acknowledge thee in all our ways, Thou wilt direct our paths; for thou art the God of love, giver of every good and perfect gift, and there is none beside thee.

"Thou art eternal, immortal, invisible, in all and through all, and over all, the only God. And thine is the kingdom and the power and the glory forever and ever. Amen."

## Both Parties Like The Coffee Party

This year, civic-minded women everywhere are coming to the aid of the political party of their choice. All, however, join together in their approval of the coffee party, sometimes known as the Candidate's Kaffeeklatsch!

There's something about a friendly cup of coffee that stimulates thinking, makes it easier for people to talk and listen. "Come for coffee with our candidate," is a simple invitation, but elections over the past twelve years show that it packs real political power.

### How To Give A Political Coffee

If you plan a coffee for your favorite candidate, you will find that it is an easy and pleasant task. First, invite enough people to provide a worthwhile audience for your busy guest of honor. Don't be afraid to crowd your guests in—there's a psychological advantage for your candidate if you do.

All you need to serve is coffee, coffee and more coffee. Cookies or some other sweet may be added, but they aren't necessary. The coffee, however, is necessary and should be hot and delicious.

For twenty people (two cups apiece) use one pound of coffee to two gallons of water. To brew excellent coffee in a kettle, place regular grind coffee in a clean cloth sack, allowing half the space for expansion of the grounds. The closed sack to kettle handle. Bring measured water to a boil, then reduce heat below boiling and drop coffee sack in water. Brew over low heat six to eight minutes, agitating sack occasionally.
