Cheesecake Variation

Just about every man loves cheesecake—and here's a new way to vary the scene. Into a pie shell goes a "cheesecake" filling to be garnished, if desired, with strawberries. Because the filling is made with reliable unflavored gelatine, there's no baking involved. The No-Bake Cheese Pie is simple to make, so wonderful your family will demand it often.

- No-Bake Cheese Pie**
- 1 envelope unflavored gelatine
 - 2 cups (16 ounces) creamed cottage cheese
 - 3/4 cup sugar
 - 1 cup milk
 - 1 teaspoon grated lemon rind
 - 1 9-inch baked pie shell

Mix together gelatine and sugar in top of double boiler. Stir in milk. Place over boiling water, stirring occasionally, until gelatine is dissolved, about 8 minutes. Remove from heat; add lemon rind; cool. Sieve cottage cheese into large mixing bowl, or beat with electric mixer until smooth. Stir in cooled gelatine mixture, salt and lemon juice. Chill, stirring occasionally, until mixture mounds slightly when dropped from a spoon. Fold in whipped cream. Turn into prepared shell. Chill until firm. If desired, garnish with additional whipped cream, and fresh or frozen strawberries. **YIELD: 1 9-inch pie.**
