

### Named Scout Dist. Chairman

Clarence C. Newcomer, 600 Pleasure Road, Lancaster, has been named Chairman of the Western District, Boy Scouts of America. Charles G. Elliott, Landisville, and Hampton B. Allen, Lancaster, were re-elected as district vice-chairmen.

Newcomer, an attorney, is serving as assistant district attorney of Lancaster county. He attended public schools in Mount Joy and was graduated from Franklin and Marshall college and Dickinson School of Law.

Acting in civic affairs, he served as charter president of Lancaster Sertoma Club and is past district governor of Sertoma International. He is a director and past president of the Lancaster County Branch of the Pennsylvania Economy League; is a past president of the Friends of Lancaster Free Public Library; and is a member of the board of directors of the Muscular Dystrophy association. In 1952, he received the Distinguished Service Award from the Lancaster Jr. Chamber of Commerce. A World War II veteran of the Navy, Newcomer is married and has three daughters.

In addition, George Datesman, Clayton Garrett, David J. W. Noll, and Harry Sourbeer Jr., all of Columbia; Dr. John Gates, Marshall L. Gemberling, Charles Heaps, and Gerald Hostetter, all of Mount Joy; Robert Long and Gene Miller, both of Marietta; Dr. Paul H. Ripple and Charles Shaub, both of Neffsville; George Bable, of East Petersburg; Charles G. Elliott, Landisville; Richard McCullough, Mountville; and Richard W. Wolf, Elizabethtown.

cy alarm system. On recommendation of the lighting committee, Council authorized the installation of

five street lights along Bruce avenue.

They are to be spaced approximately 350 feet apart and will cost the borough \$220 per year.

A letter of resignation was received from Samuel Balsbaugh, who after serving as member and as secretary of the Donegal Union School Authority for several years, was obliged to step down because he has moved his residence from the borough.

No successor was named.

Marshall Dussinger, Donegal Springs road, however, was named to the Tax Adjustment board to replace James Booth, who has moved from the borough. Dussinger's term will run until Jan. 1, 1966.

Other members of the board are Don Zerphey and Frank Eichler.

Simeon Horton, street committee chairman, reported that the 1965 summer street program is being formulated and that he believes that it will be ready for presentation to the council at the April meeting, scheduled for Monday, April 5.

Horton also said that plans are being made for a spring street cleaning program. The council approved a proposal to rent a street sweeper, to have it come to Mount Joy in the spring and to clean several blocks of pavement.

Council approved a "no parking" amendment which will prohibit parking along the north side of Main street for a distance of about 200 to 250 feet in front of the Mount Joy restaurant.

#### PLAN DANCE

The ladies auxiliary to the Friendship Fire company #1 will have a record dance in the fire hall from 7 to 10 p. m. Saturday night, March 6. Spot dance winners at the last dance were James Parsons, Diane Swords, Gene Ebersole, Joe Baker, Jane Keibler and Donald Lauver.

When in need of printing remember The Bulletin.

## Over The Back Fence

by Max Smith

WHILE attending a recent dairy meeting I was interested in the presentation of several speakers who were stressing the importance of careful and thorough study of the pedigree, production, disposition, and various characters of a cow before selecting her as a replacement or as a foundation animal in the herd. This got quite complicated and very high standards were outlined. Although some dairymen might not have many animals left after such an analysis, I agreed with the speakers that all of the points were important. It brought to my attention the need of a dairyman to be well acquainted with each cow and with her various performance habits. To a dedicated breeder with animals in a stanchion barn this knowledge of each animal is to be expected and many dairymen have it at times; however, to the dairymen with loose housing it may require some extra effort and attention to obtain the needed information on each cow in the milking herd. I feel that it can be done and is essential toward progressive breeding and replacement selection.

WHEN SPRING arrives and we get considerable activity in planning our crops and in using fertilizers, we often get a number of questions about the use of extra calcium and magnesium in our local soils. These are needed soil elements but are not considered to be the primary fertilizer elements such as nitrogen, phosphorus, and potash. On our complete soil testing program there is a special test available (at extra cost) for these two items. However, we feel that in most soils there is sufficient amounts of calcium and magnesium; this is especially true in soils that have been properly limed in recent years.

### Creamy Caraway Sauce

## Good Dipping for French Fries

Some folks we know have a "secret touch" with meat cookery; others are known for their way with pastry or cake. But seldom do you hear anybody say that someone really excels at doing interesting things with vegetables.

A creative vegetable dish can add color, texture and a myriad of wonderful flavors to a main dish, and it can bring a host of compliments to the cook.

Such a dish is this new way with frozen French fries! Made with crispy, golden brown fries... which heat in a jiffy in the oven... in fact, while you're making the savory sauce... this is a recipe you'll treasure in your file of family fare and use again and again for company menus, too.

#### Creamy Caraway Dipping Sauce For French Fries

- |  |                                     |
|--|-------------------------------------|
| 1 package (1 pound) or 2 packages (9 ounce each) frozen French fries | 1 cup milk                          |
| 1 tablespoon butter or margarine                                     | 1 teaspoon caraway seeds            |
| 1 tablespoon flour   | 3 tablespoons coarsely grated onion |
| 1 1/2 teaspoons salt   | 1/2 cup dairy sour cream            |
| 1/4 teaspoon dry mustard   | Paprika                             |
|  | 1 teaspoon rosemary                 |

Heat French fries in oven or skillet according to package directions.

Melt butter or margarine; blend in flour, salt and dry mustard. Add milk and cook, stirring constantly, until smooth and thickened. Stir in caraway seeds, onion and sour cream. Sprinkle paprika and rosemary on French fries and serve with sauce.

Yield: 4 servings.

and garden crops, I'd like to call attention to the importance of proper placement of this fertilizer. In many cases the fertilizer and the seeds come into contact with each other and the seed germination is reduced or killed. In a complete fertilizer both the nitrogen and the potash are caustic to seeds and plants and will burn; the phosphorus is usually not as dangerous in a starter fertilizer. We urge growers to drill fertilizers separately prior to seeding or to have planters where the seed and the fertilizer are not placed

together. Starter fertilizers should contain sufficient phosphorus in order to enable the roots of the plants to get a fast start. Seeds that are inoculated with special bacteria, such as alfalfa or soybeans, shouldn't come into direct contact with a complete fertilizer.

#### PLEDGES FRATERNITY

Robert Walker, son of Mrs. Robert D. Walker, E. Main street, and a freshman at Grove City College, Grove City, Pa., has been pledged to the Beta Sigma fraternity at the college.
