go back again to 1938 — in that year there were approximately 4,000,000 registered motor vehicles in Pennsylvania, while this year finds almost 12,000,000 registered vehicles in the state of Pennsylvania. In other words, since 1938 the number of automobiles in our state has increased by 300% while the number of state policemen has increased by 44%.

Bear in mind, that these above figures pertain to traffic problems only. We all know that crime (organized and other) in this commonwealth has increased many fold since 1938. There is no doubt in my mind that prior Legislatures and prior Governors have also been derelict in their attention to the Pennsylvania State Police.

However, prior sins are no excuse for present sinning. The Democrat leadership in the House must bear the full responsibility for not increasing the complement of the state police during the year 1966. I am told by State Police Headquarters that if they had received authorization for the additional 300 men on July 1 of last year that these men, by now, would have all finished their training at the Hershey Academy and be throughout the Commonwealth providing additional service and protection to our 12 million citizens.

Playing "politics" is one thing but playing politics with human safety and protection is quite another. The state police are important to law enforcement throughout Pennsylvania, and they must be given the manpower to do their job.

ATTENTION!

ALL PAYING NEWSPAPER CUSTOMERS

New Year's Day at 8:30 a.m. thirty-two (32) papers were stolen at our store. Holidays are exceptionally bad. At one cent per paper profit for the Lancaster paper, it is hardly a paying proposition. I've tried to warn everyone but a few people still insist on cheating and stealing.

To the honest people, please don't be offended if you see me checking the coin tumblers after you leave. A person who has nothing to hide has nothing to fear. Furthermore, if I remove your money, I know exactly what the next person puts in. Several people have threatened to do me bodily harm when exposed to cheating and taking papers, including the mother of a mature woman who called me on the phone recently and asked if I was the person that watches people stealing papers. When I replied in the affirmative, she stated that I apprehended her daughter and that the next time she came to Mount Joy she was going to punch me right in the nose. If you see me with my nose all bandaged up, you'll know the reason why.

Please pay for your papers. I don't like bruises.
