ization needs a new fire house and the members of the company have been fighting a tough battle to accumulate enough money to do the job. They do have some funds.

The Florin hall is a community 'white elephant' which needs so many things that many people are now willing to agree that maybe the best thing to do is to "tear it down." On the otherhand, it does fill a certain need.

For several years, firemen of the community have felt a very real need for a big tanker truck which would stand ready to make immediate delivery of a quantity of water to the scene of certain kinds of fires. But, that need is not filled because of lack of housing for such a piece of equipment.

Not too long ago a piece of Civil Defense equipment which is valuable to the community was offered to this area but went to another borough because we have no suitable place to house the machine.

There is a need for a small "community room" in the Florin area.

All these needs, and probably more, are in addition to those of the Borough Council and the Borough Authority for housing of their growing inventories of equipment and materials and for offices and meeting rooms.

Thus, you can easily see that there is more than ample justification for the various groups mentioned here to be included in the planning of any building similar to the proposals now being made by Council.

It is beginning to look as if Council needs to expand its thinking in this area.

If the area between Pink alley and Church street and between Plum and Market avenue was cleared, there would be an ideal piece of borough-owned property upon which such a building could be erected.

Among the many things which would favor the location is the fact that the land is highly accessible to existing streets.

Now is the time to do a good job which would serve the community for many many years and at the same time solve a number of already existing problems—all in one project.

YOUR LEGISLATOR'S REPORT

Jack B. Horner

Last Wednesday evening I was out circulating my Petition to run for reelection to the Legislature. I returned home about 9:15 and was informed by my wife that I had received a phone call and a telegram concerning a special meeting of the Legislature called by the Governor for 10 o'clock that evening. It appeared that the Senate had passed a bill on Congressional Reapportionment and that it was necessary for the Legislature to meet that day so the action of the Senate would be effective.

I jumped in the car and arrived in Harrisburg a few minutes before 10:00. This meeting came as quite a surprise and the notices did not go out until early in the evening, so it was impossible for all the Legislators from
