PP&L ANNOUNCES ANNUAL SCHOLARSHIP WINNERS

These twenty-six high school seniors will begin their college educations this fall with scholarship assistance from PP&L.

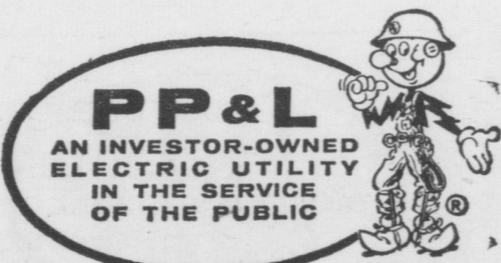

Twenty-three of the winners were selected by and will attend 21 Central Eastern Pennsylvania colleges and universities under PP&L's General Scholarship Program, which provides from \$250 to \$1,450 per student, related to the instructional costs at each institution. Two of the awards stipulate that the students must pursue a degree in engineering. The other 21 general scholarship winners may study any course leading to a baccalaureate degree.

The remaining three students were selected by the National Merit Scholarship Corpora-

tion under a separate scholarship program for sons and daughters of PP&L employees. These students receive from \$100 to \$1,500 per year, depending upon financial need, and may attend the college or university of their choice.

PP&L's scholarship program reflects the Company's belief that progress is a product of education and that the nation needs the full potential of its capable young people. In addition to providing grants-in-aid directly, PP&L supports the Foundation for Independent Colleges of Pennsylvania, matches employee contributions to qualified educational institutions anywhere in the U.S., and has an educational assistance program under which employees may continue their studies in various fields.

Students who will become high school seniors next term and will enter college in 1967 are invited to compete for PP&L's 1967 scholarships. High school principals or guidance counselors will have the details in the fall.
