## The silent ride of quality for '68

Now there are more good reasons than ever why people should prefer Impala. Like all regular Chevrolets, it's even further ahead for '68!

### A more hushed ride

Among other things, we refined and improved everything about the ride to make it surprisingly smooth and silent. Just try it and see. You'll find that our

engineers used electronic computers to pinpoint places where noises might develop, and installed a special network of rubber cushions to keep squeaks and rattles from disturbing your comfort.

We doubt that you've ever driven a car that moves so noiselessly.

### The look you like best

People have always preferred Impala's looks. So for 1968 we made it even more beautiful. We gave the grille a more massive and masculine look. We gave the hood sweeping new lines and tucked the wipers neatly out of sight. We designed the taillights right into the rear bumper for a look you're sure to like.

### We owe you the best

We figure we owe people more than other car makers do. Because it was people who put us in first place in the first place, and who keep us there year after year. We appreciate it.

Be smart! Be sure! Buy now at your Chevrolet dealer's.
