Rotarians Hear Newcomer

Clarence C. Newcomer, Lancaster county district attorney, was the speaker Tuesday noon at the weekly luncheon meeting of the Mt. Joy Rotary club, held at Hostetters.

He spoke on "Law Enforcement in the Community."

More police officers and more equipment will help the fight against crime, but the heart of the problem is the state of the moral fibre of the people, he said.

Policemen and patrol cars are an external remedy. Respect for the law—especially among the young—is the true answer, the former Mt. Joy man said.

Declining physical and moral standards can be met with self discipline, Newcomer said.

One of the newer problems, locally, the D.D. pointed out is drugs. More and more cases are turning up in the

local courts he added.

He recommended that police officers be well selected and well trained, pointing to the new and changing approaches to law. Lawyers have days and weeks to prepare but a policeman must have instant knowledge of when and how to make arrests.

Newcomer, son of Mr. and Mrs. Clarence S. Newcomer, was introduced by Dr. Robert Eshleman, program chairman and vice-president.

Single Men Least Healthy

Men, stay married! You will live longer and be healthier than your divorced brethren. At least that's what a study released recently by the California Department of Public Health shows.

The death rate for divorced men, according to the study, is more than twice that for married men — 36.8 per 1,000 versus 12.4.

Divorced men fall ill almost twice as frequently as married men, 43 disability days for the former as against 22 days for the latter.

GREASE ON WALLPAPER

To remove spots from the wallpaper, try holding a clean white blotter over the spot with a warm iron for several minutes. The heat should melt the oil or grease so it can be absorbed by the blotter.
