Seek Block Parents
Eighty-five parents have volunteered to serve as "block parents" in a program being organized in Manheim.
T. J. Jachimowicz, chairman, of the organizational committee, said there is still a need for more volunteers.
The program is designed to have designated parents on each block in the community to whom children enroute to and from school could turn case of emergency. The homes would be marked by signs.
Still needed are applicants for block parents on these streets: Laurel, between High and Granby; Penn Street, from High to Granby; North Grant, from Granby to Colebrook; Heintzelman St. Fulton Street, Stiegel, New Charlotte and Hershey Drive.
Applications may be obtained from Robert Eshelman, supervising principal.

Boys Become Stronger Sex

Boys become significantly stronger than girls at about 14 and 15 years of age, according to a study made by Maxwell L. Howell, Ph.D., of the University of Alberta in

Edmonton, and reported at the fifth Pan-American Congress on Sports Medicine here. Strength measurements made for a group of boys and girls were grip, elbow flexion, elbow extension, knee extension, back and leg lift. He found that the strength of boys tripled for grip and arm, leg, and back-lift strength between 7 and 15, while leg lift strength quadrupled. The strength of girls in these categories doubled and increased two and a third times.

Mount Davis, the highest point in Pennsylvania, 3,213 feet above sea level, is located in the Forbes State Forest, located in Somerset, Fayette and Westmoreland Counties.

The Nation's first paper mill started operating in 1793 in Roxborough, now a part of Philadelphia.
