How many "sit ups" is a record?

Who knows the answer? But we do know that a Donegal high school junior did 1,330 one day last week.

A "sit up," in case you wonder, is one of those "exercises" one does to keep physically fit. You lie on the floor on your back with your hands locked together behind your head. Then, with your feet remaining on the floor,

you sit up. It's as simple as that. One thousand, three hundred and thirty times this lad raised up from a lying to sitting position and back

again.
The rules say that an assistant may hold your feet down onto the floor.

In case it sounds easy, try it. It will take the fat off your tummy and the starch out of your good intention to exercise.

Rotarians Hear Foreign Student

Carlos Urbizo, an F & M student who is a native of Honduras, Central America, was the speaker Tuesday noon at the weekly luncheon meeting of the Mount Joy Rotary club, held at Hostetters.

Studying in America on a Fullbright scholarship, he is a junior at the Lanc. school.

Tonight two billion people in the world will go to bed hungry, according to the world health organization. Although we now have plenty of food, other nations have bare subsistence.

A single human hair is stronger than steel! If a hair is laid on a bar of steel and run through a rolling mill, it's imprint will be visible on the steel!

If white-footed mice have moved into your house or cabin this winter and are a nuisance, see your county extension agent for information on controlling them.

THE GREAT WIDE-TRACK DRIVE IS ON!

There's very little difference between Wide-Tracking in a Pontiac and ordinary driving...in dollars. A big, powerful Wide-Track Pontiac costs no more than some of the so-called low-priced cars. So if you're settling for less than a 400 cubic inch V-8 and a big-car 121-inch wheelbase, stop settling. Start Wide-Tracking. The drive is on. See your Pontiac dealer. He's out to smash sales records for the 7th straight year!
