

A road built from India to Marco Polo. Burma by the U. S. Army during World War II followed—for part of its route—a trail originally blazed by the U. S. Army. If something's bothering you, psychologists say it is often best to escape temporarily by losing yourself in a movie, book or hobby. When in need of printing remember The Bulletin.

WHEN WE INSTALLED ELECTRIC HEAT WE KNEW IT WOULD BE CLEAN. BUT IT'S EVEN CLEANER THAN WE EXPECTED.

One sure way to help keep your house clean and in good shape is to modernize with flameless electric heat. Electric heat, like electric light, can't create dirt, so furniture, drapes and floors stay cleaner longer.

Importantly, when you modernize with the clean comfort of electric heat, you have a choice of systems to fit your particular needs . . . electric furnace, hydronic unit, baseboards, ceiling cable or heat pump.

Get the clean facts. Call PP&L or a Reddy Kilowatt Recommended Electric Home Heating Dealer listed in the Yellow Pages under "Heating."

JUST ONE OF THE REASONS 10,000 PP&L CUSTOMER FAMILIES HAVE MODERNIZED WITH FLAMELESS ELECTRIC HEAT AND 22,000 HAVE BOUGHT NEW ELECTRICALLY HEATED HOMES

what we want without regard for our neighbors or for ourselves.

The wise man points out that our real freedom is in our choices — all directed toward becoming and being what we should be.

America has been abusing this freedom and we have been neglecting to teach and to help form our children into a pattern of being what they are supposed to be.

Doing what one is supposed to do applies to father and mother, teacher and student, employee and employer, white and black, rich and poor. Every man is free to be and to struggle to become what he should be.

Rioting, pillaging, flaunting, fighting, scoffing, cheating, lying are not the things for any man to be—or to be doing.

We are free to be — not to do!

Given Exclusive Use of Name

J. Foyd Kreider, Mt. Joy, will have the exclusive use of "Meadow-Biew-K" as the prefix in naming all Registered Holsteins bred in the herd. The use of this herd identification name has been granted by Holstein-Friesian Association of America, Brattleboro, Vermont. It becomes one of more than 48,300 officially recorded prefixes in the Association's files.

By reserving a prefix, a Holstein dairyman establishes a "trade mark" which is used in all published information concerning the performance of his cattle. It becomes the first part of the name of every animal bred in the herd. The origin of prefix names stems from farm names, family name combinations or historical features of the farmstead. Members of the immediate family of the person for whom the prefix is recorded may also be allowed to use the prefix when the herd is a single unit.

Corn provides more food for men and animals — and more land is used for it — than any other crop.

Bothered by unsightly white rings on your highly polished furniture? They'll disappear if you apply warm, camphorated oil to them. Rub the furniture until it is dry, then polish with a clean soft cloth.
