## Miss Teen Age

... answers questions about Junior Miss etiquette, grooming and interests.

Q. Another long dreary summer coming up! I'm too young to work and too old (and bored!) not to plan something. What can I do to fill up those long empty days?

A. Summer can be a real drag without something to do. What would you like to do? Interested in theater? Visit your local summer theater and volunteer to paint scenery or help usher during performances — a good way to see them free! If you like children, offer to read for them at the library — or be an assistant counselor at a playground. Dust off that unused bicycle and go on an all-day bike-hike with your friends. Make a bunch of wild-colored paper flowers, plan a picnic, whip up your dream dress, learn karate, shape up your figure with swimming — do everything you've been dying to do these drab winter months!

Q. I get confused when we play follow-the-leader down the aisle at a movie. Who goes first — me or my date? And who goes into the seats first? It's double trouble when we're with another couple.

A. The easy-come, easy-go method is for the girl to follow the usher down the aisle with the boy following the girl. If there is no usher, the boy precedes the girl down the aisle. The girl goes into the row of seats first, the boy follows her.

With two couples, use the same method of walking down the aisle, but when you get to the row of seats, the girls sit in the middle with the two boys on either side.

Q. My face is particularly oily during the summer — and on comes my annual worst case of blotchy blemishes! You can't exactly stop in the middle of a beach and wash your face — and sometimes I'm at the beach all day.

A. So many gals feel that the sun is just what is needed for blemished skin — and they're so right — up to a point! A suntan on your face should help dry the skin slightly — but easy does it. Golden glows are fine but deep bronze tans may make your skin coarse and bring out more oil than ever. As for those long lazy days at the beach, why not bring along a plastic bottle of astringent? Carry a pocket pack of Kleenex tissues and dab on the astringent once or twice during the day. This should keep your face oil-free, clean and clear. Happy sunning!
