weekend. It is an interesting place.

One of the things we observed about it: a shopping center with a covered, central mall is an ideal place for people in wheel chairs and tots in strollers. There are no doors to open and close, and there are no steps! Perhaps that would explain the fact that we saw many women enjoying the sights from a wheel chair, and many little children in strollers!

Senior Girl Scout Troop

Many people in Mount Joy don't realize there is a Senior Girl Scout Troop in town.

These girls do a great service to the community by helping in the younger troops as Aides. Without these girls many of the troops would fold.

Some of the activities that the girls are carrying out are as follows: Attended church with the Veterans; donating a gift to Needle Guild; next week they are performing at the Crippled Children's Hospital and treating the children there to ice cream; next month a caroling party to Leaman's Rest Home and the Messiah Children's Home.

To produce the tremendous numbers of fish needed to keep the lakes and streams stocked requires some 60 different pesticide chemicals. These are used to improve the aquatic habitat, to periodically remove trash fish, and to control disease.

A snack for those who would lose weight: cold, mashed turnips.
