

# Subject: PEOPLE!

BY NANCY NEWCOMER

A correction from last week: Also camping at Ocean City, Maryland over the Labor Day weekend with the Stahl, Gibble and Brubaker families were Mr. and Mrs. Robert Divet and sons Gary and Mark.

Mr. and Mrs. John Weidman and sons John and Mark recently combined business with pleasure, flying to the state of Indiana over a week end.

Mr. and Mrs. James Phillips have returned home after spending a two-week vacation at their cottage in Avalon, N. J. where they enjoyed beach combing among a tremendous number of horseshoe crabs, jogging, sailing, and swimming with one too many dives. While there, they were visited by their son Steve and his house guests, Miss Alice Kleiner, Barry Meckley and Gordon Ney. Also visiting them during their stay were Mr. and Mrs. Thomas Garber, Mr. and Mrs. Dale Walter, Dr. and Mrs. Thomas O'Connor and Mr. and Mrs. James Schatz, and son Jamie and friend.

Mr. and Mrs. Lester Eshelman spent last week end enjoying the sun at Atlantic City.

Those attending were: Mr. and Mrs. Jim Gingrich and Stacy, Mr. and Mrs. Ray Bair, Tim and Tom, Mr. and Mrs. Leo Moore, Mr. and Mrs. Wm. A corn roast was held at Locust Grove last week end by the Haldeman Historical Society for benefit of the restoration of Locust Grove. The menu included of course roast corn on the cob, chicken corn soup, baked beans, hot dogs, applesauce and many delicious baked goods.

A special painting of Locust Grove was painted and donated by Mrs. Ron Steinmetz. The picture was then sold by taking field bids. Also a handmade afghan and a ham were chanced off. This enjoyable out-of-doors event was planned by Mr. and Mrs. Martin Ginder and the following worked very hard to make the project a success: Mrs. James Roberts, Mrs. Bud Mohr, Mrs. Sonja Forrey, and Mrs. Pauline Longenecker.

A surprise going away par-

ty was given in the honor of Mr. and Mrs. Charles Bennett and Wilbur Stark on Sunday afternoon at the home of Mr. and Mrs. Richard M. Stark. pounds per square inch. The water will be pumped under as much as double or more that pressure. If the line is weak or needs repair, water will escape and come to the surface of the ground, indicating the location of trouble.

When, and if, it does, that will be what appears to be a new water spring, or perhaps a gusher.

The two lines will be tested at different times to maintain the flow of gas at all times. They actually serve to transport gas to wholesale customers in the Philadelphia-New Jersey area.

Tests begin at the Marietta pumping installation, located near the new Armstrong development, and the lines stretch northward and eastward and lie north of Lancaster.
