Do you believe in the tremendous capabilities of man? Christians do . . .

Do you, on the other hand, believe that man is quite helpless to overcome many of the forces that threaten his progress? Christians do . . .

How can the same religion support such contradictory views?

Well, we take for granted that a tank-load of gasoline will propel an automobile many miles. But there are cold mornings when we can't even get the engine started. What is missing?

A spark! A continuing series of sparks! Never over-simplify the functioning of the human soul. Like the internal-combustion engine it can be powerless when denied the fire that unlocks its energy.

To be himself — to be all that God intended him to be — a man needs God.

Bring your hopes and frustrations to church next Sunday.
