Life With The Rimples

Spice CABINET

DATE WAFFLES
 2 cups all-purpose flour
 1/2 teaspoon baking soda
 3 teaspoons baking powder
 1/4 teaspoon salt
 1/4 cup sugar
 1 teaspoon ground nutmeg
 1 cup finely chopped fresh California dates
 1/2 cup finely chopped nuts
 3 egg yolks
 1 1/4 cups buttermilk
 1/2 cup melted butter or margarine
 3 egg whites, stiffly beaten
 Combine flour, baking soda, salt, sugar, nutmeg, fresh dates and nuts. Beat egg yolk with buttermilk and butter. Add liquid all at once into dry ingredients. Beat until smooth. Fold in egg whites. Spoon 1 1/2 cups batter into preheated, greased, 9-inch-square waffle iron. Bake to desired degree of doneness. Serve waffles hot with pats of butter, heated maple syrup and sausages. Makes four

Egg salad & peanut butter sandwich
 Pick-up salad
 Cherry crumble
 Milk

Thursday, March 11

Jr. Hoagie or meat and cheese hoagie
 Green beans in butter sauce
 Fruit cocktail
 Milk

PP&L Reports Yearly Earnings

Pennsylvania Power and Light company has reported earnings per share of common stock for the 12 months ended Jan. 31 were \$1.99 down from the \$2.30 for the similar 12-month period last year.

PP&L President Jack K. Busby said that earnings per share were still at depressed levels even in the face of higher rates for electric service which were intended to help offset higher costs. "This clearly indicates," the utility president said, "that the costs associated with running our business are still growing faster than our ability to cope with them. This is particularly true with respect to the high cost of financing our huge construction program through the sale of company securities, a program designed to meet the needs for electric power in the future."

"We have a long way to go just to return earnings per share to 1969 levels, let alone to levels which will continue to encourage investors to buy PP&L securities," Busby said. "Make no mistake. We need adequate earnings to attract the investor dollars needed for our construction program. This means that, despite our continuing efforts to control costs, we today find ourselves in much the same position as any other supplier of goods and services. We need higher prices for our product, prices which will help us achieve the kind of earnings which let us continue supplying our service."

REV. JACK YOST

Evangelist Jack Yost of Berwick, Pa., president of Yost Evangelistic Ministry, Inc., for church revivals, village crusaders and rural areas, will be speaking from Mar. 7 thru 14, each night at Mount Pleasant Brethren in Christ church near Mount Joy. Rev. Harry D. Bert is pastor of the church.

Yost, for the past 16 years has been in the evangelistic field full time, earning the reputation of a successful soul-winner. His messages have borne fruit wherever he has preached. Mr. Yost has held meetings in most of the major denominations and has been well recommended by district superintendents and pastors.

A keen insight for the needs of people has been acquired by Mr. Yost in his work among different churches. As an evangelist his fine arts training at Bob Jones University, gives an added flourish to his pulpit procedure. He is uncompromising in his loyalty to the Word of God, sane in his approach, and reasonable

in the positions which he takes.

Mr. Yost said recently, "Men and women need a religion they can live by and is worth dying for. No time during my ministry has there been more deception, confusion and greater needs, than today. The answer to that need, now as always, is Jesus Christ."

Some of the special nights that will be observed will be Youth Nights on Monday and Saturday, and Family Night on Thursday. Services begin each night at 7:30 p.m. The public is invited to attend each service.

If people always spoke without thinking, they'd lose a lot of friends.

The ice cream sundae originated in Ithaca, N.Y. in 1897!

Frozen water pipes should be thawed slowly. Fast thawing causes steam to form at one point, causing bursting. For this reason, and so as not to cause fire hazards, do not use a blowtorch. Heat lamps, hair dryers, heating cable, light bulbs can be pressed into service. Move the heat along the pipe. Work close to the faucet at the opposite end from the shutoff valve. Keep the faucet open, so the water can flow as the ice melts.
