INDOOR PAINTING

If you're doing some indoor painting, specialists with the United States Department of Agriculture advise you to be sure the room is well-ventilated. Avoid prolonged exposure to paint fumes for a day or two after painting. And

keep pet birds out of the room until the paint fumes are gone.

Latest figures show there are more than 92,500 4-H Clubs in the United States & Puerto Rico. Led by over 500,000 volunteers (adult, junior

and teen) it is estimated that for every hour spent by professional Extension workers on 4-H, volunteer leaders spend five hours.
