## Still Sick?

You may be treating your symptoms instead of getting to the cause of them.

The cause may be due to a misplaced vertebrae of your spine which will create pressure on your spinal nerves.

Chiropractic Adjustments releases this pressure off these nerves, so that your body can function again properly.

### Pinched Spinal Nerves Can Cause These Symptoms:

- |              |          |           |
|--------------|----------|-----------|
| Headaches    | Sciatica | Sinus     |
| Ulcers       | gas      | Cramps    |
| Nerves       | Pain     | Stiffness |
| Constipation | Numbness | Bursitis  |

So Get Your Spine Checked Today!

### RECORD KEEPING

Recordkeeping is a part of being a 4H'er. Each girl and boy does a record in each project he takes. There is a personal record & a permanent record which summarizes all projects, exhibits, offices held, events attended, and

activities for the year. For more information about 4-H think we'll like something we programs, contact your county agent.
