PINK PORK

If the pork you're roasting seems to remain pink even though it should be well done it is still safe to eat. The pink comes from a chemical reaction of the gases in the oven with the meat. The United States Dept. of Agriculture says both electric and gas ovens will cause this reaction. The pork is perfectly safe and good to eat.

PROGRESS

The distance to the moon was once measured in miles, but now it's dollars.

BUILT-IN DEFENSE

No enemy nation could take the risk of invading us. Our youth are too well armed.

Cancer is most curable when it's caught early and treated promptly. The American Cancer Society urges you to have a health checkup once a year even if you feel great.
