

Still Sick?

You may be treating your symptoms instead of getting to the cause of them.

The cause may be due to a misplaced vertebrae of your spine which will create pressure on your spinal nerves.

Chiropractic Adjustments releases this pressure off these nerves, so that your body can function again properly.

Pinched Spinal Nerves Can Cause These Symptoms:

- | | | |
|--------------|----------|-----------|
| Headaches | Sciatica | Sinus |
| Ulcers | Gas | Cramps |
| Nerves | Pain | Stiffness |
| Constipation | Numbness | Bursitis |

So Get Your Spine Checked Today!
