**SMOOTH DESSERTS**

Why are frozen desserts usually smooth? Freezing makes them smooth because sugar lowers the freezing point of the mixture to be frozen. This factor, plus stirring, makes tiny ice crystals in your food. The result is a smooth and creamy product.

**WATER FOR TREES**

Trees do not drink rainwater that falls on their leaves. Leaves are waterproof and trees get their water from the ground.

Some researchers believe there is a relationship between viruses and certain cancers. Help them find out and help wipe out cancer in your lifetime. Give to the American Cancer Society.
