BATHING BEAUTY

WEDNESDAY, AUGUST 9,

You can create a new style and color scheme in the bath each time you put out fresh towels. Are you in a romantic "My Fair Lady" mood? Hang up matching towels and bath mat in a floral design.

For a gay modern look use bright contrasting solid colors with coordinated striped fingertip towels and bath mat. Many combinations can be made with vat dyed towels, as colorfast as they are beautiful.

Beavers have 2 to 6 pups every year!

### PROTECT ANIMALS

To protect animals from injury, Extension livestock specialists at Penn State suggest the correction or elimination of such conditions as high door sills, deep gutters, low fences, horns on cattle, protruding nails, and small pieces of metal that sometimes get into feed.

Extension turfgrass specialist at Penn State. If there is any doubt about the kinds of seed which should be used in varying situations, contact your Cooperative Extension Service (county agent) for suggestions on desirable seed or seed mixtures. Lawns must be carefully planned if they are to be attractive.

It was once believed that black cats were disguised witches.

Handkerchief means "a covering for the head held in the hand."

### USE PROPER LAWN SEED DEFINITION

It is important to use proper seed if homeowners wish to establish good lawns, reminds John C. Harper, II,

Sophistication: The art of admitting that the unexpected is just what you anticipate.

## 4-H'ers Think...Drink Milk

Milk, cheese and other dairy products are among the most popular and basic foods in our diet. We use dairy products as beverages and appetizers, in baked foods and desserts; in entrees and salads. Yet many people don't get the three or four servings of milk or their equivalent, that nutritionists of the Extension Service, U.S. Department of Agriculture, say is the minimum amount of milk or milk products needed daily.

However, there are some people, young people, who not only eat and drink more than a minimum amount of dairy products, but who go into their communities and spread the good word about dairy foods. They are the 655,000 boys and girls enrolled in the National 4-H dairy foods program, sponsored for 25 years by the Carnation Company.

The 4-H members enrolled in the program learn how milk and milk products are produced and a lot more about their nutritional value.

They demonstrate many appetizing ways to enjoy an unlimited variety of dairy products ranging from milk, fresh, powdered, fat-free and evaporated; to cheeses, sour cream, yogurt and ice cream. The 4-H'ers also hit hard for good nutrition.

And to encourage youth participation and recognize their achievements, the Carnation Company provides awards to 4-H'ers who excel in the 4-H dairy foods program at county, state and national levels.

Four gold-plated medals of honor are awarded to county winners. The state winner receives an expense-paid trip to the National 4-H Congress in Chicago, Nov. 26-30. And at special ceremonies six national winners received \$700 educational scholarships. All winners are selected by the Cooperative Extension Service.

For more information about the 4-H Dairy Foods program, contact the county extension office.
