REFLECTION

When we pause to reflect on our life, we may become conscious of qualities we once had but now seem to have lost. Innocence, youthful exuberance, enthusiasm — many more qualities come to mind. It is then we need to remember that life is a process. Some things simply cannot be held on to in the same form. They develop and become a deeper appreciation of life, and a greater awareness of what is true and lasting and beautiful. Whatever your age, let reflection fill your heart with gratitude for what you have now.
