**YOU**

Considering world events, you may conclude that the world is in a mess and there is nothing you can do about it! This is emotional suicide: No one can keep you from making your contribution to building a better world. You are unique, even though you may not realize it. It may seem easier for you to magnify your faults than your strengths and attributes. But you can prevent yourself from making it!

The average gestation period of camels is 406 days.
