PLANT PERENNIALS

September is a good time to plant many perennials, reminds Extension ornamental specialists at Penn State. Iris, poenies, daylillies, hardy bulbs, and phlox are among those which can be set. Try to buy plants locally or from very nearby mail order firms, so that such plants will have less adjusting to do before winter.

The official U. S. standard of weight is the kilogram.

BELIEVE
Whether or not an individual continues to expand his consciousness throughout his life depends upon his believing that he can. There are those who seem to take satisfaction from pointing out how slowly human beings change, if indeed, it is possible for them to change. Such persons overlook the fact that most of us use only a fraction of our ability most of the time. At any given time new ideas may come that could stir us to positive action and expanding awareness. Let no one cause you to believe yourself to be less than you really are.

On Aug. 8th, 1854, Horace Smith and Daniel B. Wesson patented a breech-loading metallic cartridge.
