SMILE
 Have you ever heard music that made you happy? Or opened a window and seen the morning sun, and felt that your heart was near bursting or have you seen something that pleased you so much that without realizing it, you found

yourself smiling? A smile tells the world you are happy. A smile not only makes you happy, it does the same for those who see it. A smile is the magic something that brings not only a smile to other's faces, but a chuckle to their hearts. It takes 36 muscles to smile and 64 muscles to frown. A smile is that visionary sound you hear in silence.
