SORTING CLOTHES FOR LAUNDERING

When laundering, Mrs. Ruth Ann Wilson, Extension clothing specialist at Penn State suggests you sort clothes to separate items that could in some way damage other garments in the wash. Some points to consider when sort-

ing clothes are, color, type of fabric, garment construction, amount and kind of soil and size of item.

TIPS ON BAKING MUFFINS

Muffin batter must be pampered. Extension foods and nutrition specialists at Penn State point out that most fail-

ures with muffins are caused by overmixing. Overbeaten batter will cause peaks, tunnels and toughness in the muffins because the gluten in the flour is overdeveloped. The perfect muffin batter should be lumpy.
