First Week Brings \$1000 Donations For Library Fund

One thousand dollars — representing 20 percent of its goal — has been received by the Mount Joy Library center during the first week of its 1974 fund drive.

A public appeal for funds was launched by mail last week, seeking to underwrite its '74 total budget of \$8,500.

Approximately \$3,500 toward the support of the local library comes from state and other sources, including a contribution from the Mount Joy borough.

Contributions may be mailed to any of the three local banking offices or to William Eby, treasurer of the library board.

In a recent study conducted by the University of Louisville School of Medicine, the bacteria count for hand-washed dishes averaged 390 per plate; machine-washed dishes, less than one bacteria per plate.

Not all bacteria, of course are harmful but many cause respiratory, kidney, and intestinal infections.

On some hand-washed dishes in the study, the count was a whopping 16,000 bacteria per plate. Not surprising, though, because bacteria are ever-present on hands, working surfaces, dish cloths, sponges, towels and scrapers.

Besides reducing contact with these bacteria-carrying

Timely Tips for Women

DECORATING WITH SHEETS

The hottest item in do-it-yourself home decorating these days is sheets. There are many patterns and colors from which to choose and they are easy to keep clean and fresh.

One advantage in decorating with sheets is that the extra width means less seaming and piecing for large items such as circular tablecloths. Make a table covering with a flash of colored print or use a solid tone lavishly treated with decorative trim. Sheets are easy to sew even for

beginners. And they are often more economical than comparable yard goods.

Many sheet manufacturers offer booklets showing decorative ideas and how-to-sew information. The home decorating sections of pattern books have ideas that you can adapt. Magazines, how-to booklets from makers of trims and braids, and information from manufacturers of curtain and drapery hardware also provide suggestions.
