## New P.P. & L. Substation About Third Finished

A new electrical substation being constructed by P.P. & L. to service the Mount Joy area is about 30 percent completed.

Located a short distance east of Little Chiques creek along Road 230, the \$396,000 project is scheduled to be ready for service late this fall.

system to 12,000 volts for local distribution.

Construction of the substation will provide additional electrical capacity to keep pace with load growth in the Mount Joy area. Also, it will relieve the Donegal, South Manheim and Landisville systems presently serving the area to accommodate future growth in those sections, Arch G.
