

# THEY CAN EITHER SHOOT BASKETS... OR HEROIN!

It used to be that the only thing 10 year-olds shot was basketballs or imaginary cowboys & Indians. Today they have a choice . . . they can shoot drugs . . . and without your help many of our kids will pick drugs. Growing up can be tough when you have to fight a thing like a heroin habit. And, some of our children are going to have to fight it alone . . . unless you help. They are our Forget-me-nots. Don't forget them!
