'The late John 'Chicken' Hendrix is given credit, locally, for making the suggestion to the late K.T. Keller that he give Mount Joy the Dodge fire truck which last Saturday was turned over to the county firemen's association as a "training" truck.

-+++ As the story goes - and

there are those who recall the incident - Keller was being honored with a "K. T. Keller Day" celebration in Mount Joy. As one or two or three of the community's successful inmost dustrialists, he arrived aboard a PRR train on the appointed day and one of the very first persons to meet the former local boy was Hendrix.

+++ The two men, who had been friends for years, exchanged greetings and Keller asked, "Is there anything I can do for you?" -+++-

So we went down there one May day, and found it as lovely as they had said.

Now we would like to offer some additional advice:

"It's nice to visit Valley Forge in October, when the dogwood trees are a rosy red."

We were there this past week end, and the autumn color was spectacular. Against the green of the rolling hills, the thousands of dogwood trees beautiful red silhouettes. Thrown in for good measure were the yellow elms, the
