7-6 - Mitchell Mummaw, Vicky Noll, Kelly O'Leary, Jennifer Pietsch.

7-7 - Jeffrey Presnell, Beth Prowell, Lori Sagerer, Doris Saylor.

7-8 - Barbara Stoner.

### 8th Grade A Honor Roll

8-1 - Dean Bricker

### B Honor Roll

8-1 - Gregory Bowman, Cindy Bailey, Bonnie Wolgemuth.

8-2 - John Day, Randy Fellenbaum, Sharon Cox, Karen deVity, Sandra Emenheiser, Vicki Fogie.

8-3 - None

8-4 - James Landis, Sandra McQuate.

8-5 - Karl Mylin, Asher Neiss, Keith Pomroy, Lisa Mummaw, Alice Musser, Erika Nusko, Joyce Peterman.

8-6 - John Ruhl.

8-7 - Bruce Wagner, Michael Zeller, Rebecca Zimmerman.

## Mrs. Bixler president Farm Women's Society

by Hazel Baker

Mrs. Lewis Bixler assumed the presidency of the Farm Women's Society No. 8 on Saturday, February 15. A member of this service group since 1943, she has held numerous offices such as president, secretary, vice-president and Ways and Means committee chairman.

The mother of six children: Joanne, wife of Edwin Myers, Elizabethtown; Jay, Marietta; Phillip, Marietta; Janice, wife of Donald Drager, Marietta; Frances, wife of Gene Matteer, Manheim; and Florence, Lancaster. The Bixlers have five grandchildren.

Grace's hobbies include designing her own hand-hooked rugs, which she uses in her lovely 18-century home or presents as gifts to her children. She gardens and has made each of her children a crocheted afghan.

A member of Pennsylvania Farm Women's Committee and presently photographer for Society No. 8, Mrs. Bixler finds time to assume church duties such as singing in the choir, serve as Moderator of the Deacons, and Secretary of the Women's Association at Donegal Presbyterian Church and also is Key Chair-lady for the Schock Presbyterian Home.

A 4-H leader for 22 years, Grace is also a member of the Christian Women's Association, where she serves as Name Tag Chairman.

Society of Farm Women No. 8 was organized in November, 1922, and is one of 31 such groups in Lancaster County. Meetings are held the 3rd Saturday of each month at 2 p.m. with a planned agenda of devotions, salute, programs and a social hour.

Programs are varied to include activities such as travelogues, book reviews, cake baking, candy-making, canning and freezer demonstrations, talks on organization, and how to improve the club.

Members sew one day each year at Lancaster General Hospital and treat the guests at Conestoga View to food and games.

The purpose of the group is to contribute to the power and influence of farm women, to contribute to the community of women, to develop leadership, and to promote better living conditions in Pennsylvania farm homes.

The group sent items to veterans and food to veterans hospitals during World War II, entertained the State Convention in 1929 at Elizabethtown College, erected a memorial to the Conoy Indians, and knit afghans for the Red Cross.

Members enjoy trips to Valley Forge, DuPont's Gardens, Winterthur, Pennsbury Manor, White Hall Industrial School, Roadside America, and additional pleasure excursions.

Funds are raised by conducting food sales at auctions and white elephant auctions within their meetings. Membership dues and bus trips are also sources of revenue.

The elementary school nurses of the Donegal School District wish to remind the parents of pre-kindergartners of recent legislation that may affect their children.

A new law requiring immunization against certain Communicable diseases for new school entrants will go into effect the first day of school in September 1975.

The new law states that beginning in September

## Rob Longenecker, young man with uncommon abilities

Rob Longenecker is no ordinary young man. He is a self-taught juggler who not only juggles with four pieces of fruit, but eats it at the same time! He has juggled publicly as a part of the half-time activities at a Donegal High School football game last year. He also displayed his extraordinary talent in a parade in northern Pennsylvania.

Rob is also a fire-eater. Demonstrating for the Bulletin, he put a whole book of lit matches in his mouth and let them burn themselves out in his closed mouth.

Naturally enough, this 20-year old with such uncommon abilities is interested in the circus. Rob has written to the Ringling Bros.

-Barnum and Bailey Circus and applied to clown school. He hopes to get a chance to take a year off from his other activities to get an inside view of the circus.

His other activities include studying nursing at Lebanon Valley College. He has been interested in biology since he was a student at Milton Hershey School.

Rob eating fire

He attended the boys' school in Hershey for 11 years and was influenced by his biology teacher, Mr. Ed Ruth, who also studied at Lebanon Valley College. The Bulletin asked Rob how he felt about entering an occupation dominated by women. He said, "Being brought up in an all boys school, I'll enjoy working with women." We should have known that anyone daring enough to "run away with the circus" could not be hampered by such trivialities. In nursing, Rob would like to become an anesthetist.

Before he entered Milton Hershey, Rob lived in Mount Joy. He is the son of L. W. and the late Mary Longenecker. Rob now lives at Lebanon Valley College where his sister, Gloria is also a student. He often visits his sister and brother-in-law, Mr. and Mrs. Glen Weaver, and his grandmother, Mrs. Estella Billow, all of Mount Joy.

## Pre-school immunization

1975, no child will be allowed to enter school for the first time without a record of the required immunizations. Exceptions are made under the law for those who cannot be immunized for medical reasons, certified by a physician, or whose parent or guardian objects in writing to the immunization on religious grounds.

Immunizations required for children entering school

for the first time in September 1975 are:

Diphtheria - 3 doses of toxiod.

Tetanus - 3 doses of toxiod.

Polio - 3 doses of trivalent oral vaccine.

Measles - 1 dose of vaccine or physician verified history of disease.

German Measles (Rubella) - 1 dose of vaccine.

If your child has not had any immunizations or just

some of the required ones, we suggest you contact your family doctor or one of the state health clinics immediately so your child can be fully protected prior to the first day of school in September 1975.

If you have any questions concerning this new immunization law contact the school nurse in the building where your child will be attending.

## Music helps child grow

by Morrell Shields

Music In Our Schools Day is a national observance sponsored by the Music Educators National Conference to focus public attention on the goals and processes of music education in the schools.

What is the purpose of music in the schools of this community? Why do we teach music?

Not because we expect every youngster to major in music; not because we expect every youngster to play or sing professionally; not so every youngster can have a relaxing, fun exercise - but to help every youngster be more human, recognize beauty, be sensitive, be closer to an infinite beyond this world, have something to cling to, have more love, more compassion, more gentleness, more good, in short - more life. That's why we teach music!

Music In Our Schools Day will be observed throughout the nation on March 13th.
