## Volleyball marathon nets \$4,663 for DIG

Last Friday Jim Shrum, president of the Student Council at Beahm Junior High School, presented a check during a junior high assembly to Donald W. Drenner, Principal of Donegal High School.

The check, for \$4,663.71, was money raised by junior high students on February 7, 8, and 9, this year at their marathon volleyball game, and was contributed toward the D.I.G. project at Donegal High School. D.I.G. (Donegal Indians Gymnasium) was the building of a new gymnasium annex at Donegal, carried out with volunteer labor and donations from students and community.

The junior high students played volleyball without interruption from 2:30 p.m. on Friday, February 7, until 3:30 a.m., Sunday, February 9. Each player was sponsored by members of the community, who paid the player so much an hour for every hour he or she

played. Since the game went on for 37 hours, since each player had a number of sponsors (one had 60 backers), and since they were paid at about 10 cents an hour - the \$4,663.71 was raised.

In accepting the check from Shrum, Drenner stated that he was looking forward to having such enthusiastic and industrious students coming along from the junior to the senior high school. He said that the check would cover all remaining expenses in completing the D.I.G. gym.

Drenner thanked not only the students who participated in the long volleyball game but also teachers Walt Price and Ted Greider, who supervised the game, going without sleep during its duration. Also cited were Beahm principal, Samuel S. Harnish, and Mrs. Harnish, and Mrs. Joyce Zangari, who provided food and drink to the players.

## The good old days

"Ted" Neale found a dead rabbit in the Duffy field at the western end of town and placed it in a sitting position near a head of cabbage. He went to the Railroad House and told Proprietor Herr he knew where a rabbit could be shot. Mr. Herr loaded his gun, put on cap and gunning coat and went to the scene and put two loads into the dead rabbit before he tumbled to the joke. He threatens to

shoot the joker on sight." - this tidbit from Hotty Zink's column in The Marietta Times, November 28, 1914.

## Pet deer is missing

"Winkin," a deer whose unnatural habitat, or home, is Circle Creek Farm, Columbia, R. D. 1, has been gone for two weeks. His owners, the Dr. Robert Lombard family, are concerned for his welfare. His caretaker, Mrs. Howard Barr, stated, "We aren't sure he can fare for himself since he has been in captivity for eight

years." However, according to Mrs. Barr he sought his freedom once before but returned in a short time. She sends an appeal to anyone who may see a four-footed buck, that is not completely wild, to call her at 426-1234. He will follow her home when she will appear with cookies or apples.
