Bicentennial Committee announces its policies

The Bicentennial Celebration is already underway. While it tends to be viewed as a national and colonial event, it should also be a celebration for the enjoyment and memory of our whole community. We have a full, diversified heritage, not only nationally, but locally as well. The Marietta—Maytown—East Donegal community area is fortunate in containing a history richly reflecting the past, threading its way into the present.

It is with this theme of celebrating our past through the present that the Bicentennial Committee was formed. The purpose of the Committee is to assist in orienting established events and special programs toward a Bicentennial theme, not to draw up guidelines on how the community should celebrate. Neither is it the intent

An awards program to recognize outstanding energy conservation efforts by its industrial and commercial customers has been announced by Pennsylvania Power & Light Company.

of the Committee to be a profit-making enterprise, but rather to turn any profits into a permanent Bicentennial memorial for the community.

Our celebration will be more successful if it is a community endeavor; we welcome all suggestions and help. Because we have a considerable amount of talent in the area, it is our hope that everyone will participate in sharing this experience. Join in!
