

Bulletin picture which Mrs. Haines says helped her to get walkway at bridge

Your paper

In this issue of the **Bulletin** we are trying something new.

We want to make the **Bulletin**, not our paper but **your** paper.

We are asking you to write us -

About Adams and Eves you know.

About personal problems you need help with and how you would solve other people's problems.

About who you vote for to be Queen of the Kitchen.

We don't know what responses we'll get to these various ideas.

We hope we get a lot. In this way, we hope to make the **Bulletin** **your** paper.

Donegal Bulletin?

The **Susquehanna Bulletin** has received from a number of people the suggestion that it change its name to **Donegal Bulletin**.

We are impressed by the logic of this suggestion - because we are a newspaper devoted to the affairs of the community that lives in the Donegal School District - Marietta, Mount Joy, East Donegal Township, and part of Mount Joy Township.

As one reader said, "The **Susquehanna Bulletin** could be in Sunbury as well as Marietta."

(When the 'Susquehanna Times' was founded only last

year it circulated only in Marietta and East Donegal close to the river and not Mount Joy.

We are taking very seriously the suggestion to change our name to **Donegal Bulletin**.

Of course, we don't want to be changing our name all the time and another change would be the third new name in a year.

But we think the suggestion makes a lot of sense, because it describes our newspaper accurately.

Readers: please write to us and give us **your** reactions to this name: **DONEGAL BULLETIN**.

How would you solve this problem?

The **Bulletin** received a letter last week from a reader who was having a personal problem. At first, we thought we would publish the letter along with our own best advice on how to solve it.

But then we had a better idea. We decided to publish the letter, but instead of giving our solution to the problem we would ask our readers for their answer to the problem.

We also decided we'd ask readers to send us more of their problems. (If you want to send us a letter about a personal problem, you don't have to sign your name.) We will publish letters about problems and ask other readers to send us their advice on how to solve each problem. Here's the first letter about a problem: Dear Editor: I have two children, a boy 3 years old and a baby 4 months old.

My son was completely toilet trained a year and a half ago but lately he's been having "accidents" once in a while.

My husband and I punished him for his accidents, but now he's started something worse. He's wetting his bed.

We have punished him for this too, but it seems to be getting worse instead of better.

Could you give us any

advice? A worried mother.

Send us your advice for "a worried mother."

Also, if have any problems on which you'd like advice, write us a letter describing your problem, and we'll publish it and ask other readers for their suggestions.

You don't have to sign your name. Send letters to **Susquehanna Bulletin**, Box 75A, R. D. 1, Marietta, PA 17547.

Editorial:

What 1 woman can do

The **Susquehanna Bulletin** congratulates Mrs. Lucy Haines on succeeding in having a walkway constructed along the heretofore dangerous bridge at the eastern edge of Mount Joy.

Who can estimate how many lives her persistent one-woman campaign will save?

It's frequently said that "If citizens would just band together they could improve conditions in their commu-

nities" Mrs. Haines has proved that it doesn't take a lot of people to change things.

She has proved that just one person, who sticks at it and doesn't get discouraged by others' lack of interest, can make a community a safer place to live.

Her lone fight for a safer bridge reminds the **Bulletin** of Gary Cooper's singular devotion to duty in the movie, **High Noon**.

Queen of the Kitchen

Every year a number of young women and girls are crowned as queens of this or that in Donegal Country.

Queens seem to be selected mainly for their youthful beauty. But Donegal women have a lot of appealing qualities besides their physical beauty.

One very important quality is their cooking ability, as recognized in these old sayings: "The way to a man's heart is through his stomach." "Kissin' don't

last, but cookin' do." So, the **Bulletin** is going to have a contest for "Queen of the Kitchen."

We are asking each of readers to send us the name of the woman you think is the best cook in Donegal Country (living within the Donegal School District).

Just write the name of the woman you vote for and also the dish she cooks that you like best, and send it to **Susquehanna Bulletin**, Box 75A, R. D. 1, Marietta, PA 17547.

Adam and Eve

A lot of readers have asked us why we don't have more "Adam and Eve" columns.

One reason why we don't have more Adams & Eves is because we don't have a good way of selecting married couples to write up for the column.

Another reason for not having more Adam and Eve columns is that we don't know couples as well as people who have known

them for a long time. So, we are asking our readers to write us about couples they know. We will publish the Adam and Eve articles you send us and take pictures of the couples to be published with the articles.

Please write us about couples you know. Tell us the story of their lives together.

Send your "Adam and Eve" to **Susquehanna Bulletin**, Box 75A, R. D. 1, Marietta, PA 17547.
