

John Haines, D.H.S. football player, dies

John Haines

The Susquehanna Bulletin took the accompanying photograph of him last October after he had scored Donegal's lone touchdown by catching a pass from Kevin Bradley in a game against Elizabethtown.

An end on the football team, Haines played first base and outfield in baseball. John Haines' interest in sports began early. In the seventh grade he played football with the Donegal Braves. He was a member of the Varsity Club.

In seventh, eighth, and ninth grades he was a member of the Student Council, and was vice-president of the Council in eighth grade.

He was also a May Queen escort in the eighth grade.

He was a member of the Marietta United Church of Christ.

In addition to his parents, he is survived by a sister, Terry Lynn, a half-brother, Marlin Emswiler, and his grandmother, Mrs. Anna Brayman of Centerville.

John A. Haines, 17, son of Mr. and Mrs. John S. Haines, Maytown, died last Tuesday night in an automobile accident near Maytown.

Haines would have been a senior at Donegal High School this fall, where he undoubtedly would have played football again. He was an outstanding member of last year's team, and would have been a strong asset this year.

Mount Joy firemen at training session

by Bill Martin

The Lancaster County Firemen's Association held its second training session of the summer on July 26 and 27 at the county fire training grounds near Lampeter. The course, Fire Fighting II, involved five subjects—

1. Six hours of vehicle rescue was taught by two instructors from the Delaware State Fire School. Students were instructed in the use of basic rescue tools. They were shown how to unlock car doors, stabilize an over-turned vehicle, cut holes in roof and floor of vehicles, and pull steering wheels and floor pedals from a trapped person.

2. Three hours were spent teaching the uses and support of sprinklers. Firemen were taught the use and support of dry and wet sprinkler systems. A field trip was made to Lampeter

Plastics to observe their sprinkler system.

3. Six hours of instruction on hose lines, nozzles and accessories involved instruction in types of nozzles and hoseloads. Firemen were also shown the use of preconnects and deluge guns.

4. Instruction on water supply with large diameter hoses lasted three hours. Firemen worked with a three inch and four inch hose which is used to supply apparatus at the scene of a major fire.

5. Rural firefighting was taught three hours and involved the use of tanker shuttles, relays, fold-a-tanks, and portable pumps.
