LETTER TO EDITOR

Dear Editor:

Two weeks ago the Susquehanna Bulletin mentioned in its report of the October Mt. Joy Borough Council Meeting that the proposal for a shopping center at the Crossroads Church intersection did not pass for lack of a second to the motion. Residents of the area opposed the center for several very legitimate reasons. The purpose of this letter is not to debate the shopping center but rather to take exception to a statement made in last week's Bulletin by a candidate for Mt. Joy Borough Council from the Florin Ward.

This gentleman felt that "Council dealt unfairly with the firm—by requiring expensive planning and surveys, without ever telling the developer that his plans may not be approved." Are we to take from that line of reasoning that just because a developer spends a large sum of money for plans, Council is required to automatically rubber stamp its approval?

A Council that is unfair? I would rather call it a Council doing what it is meant to do—represent all of its citizens. Although that candidate feels that Council dealt unfairly with the developer, I can guarantee you that many people in the South Angle Street, South Market Avenue, Donegal Springs Road area have gained a new appreciation for the work of the Mount Joy Borough Council.

The many residents who took a night out to show Council their feelings deserve quite a bit of credit. However, without a Council willing to listen, the special interests of a few would have been served rather than the concerns of the many citizens who would have been most affected.

The October meeting of the Mount Joy Borough Council was the best example in which I have ever participated of democracy in action. Residents and Council are to be congratulated for "making it happen". To put it simply—this is democracy. This is what it's all about.

Sincerely,
Mrs. Kenneth Depoe
