Holiday Energy Saving Tips

Limit light-burning time on decorations.

Use energy-saving recipes for holiday meals.

Candlestick style lights placed inside windows can be convenient and effective substitutes for strings of outdoor Christmas lights.

Turn thermostat down when you're away visiting.

If you're going to bake, fully utilize your oven (more than one pie, cake, etc.).

Save automatic dishwashing and laundering chores 'til after 7 p.m. using full loads.

Avoid high-wattage flood lights and bulbs. Using miniature indoor tree lights can save.

Don't forget to keep fireplace damper closed when not in use.

Take advantage of holiday-meal left-overs . . . save on cooking time.
