W. Stigleman, a former citizen of W. Stigleman, a former citizen of Shiremanstown, committed suicide in Chicago while on his way to Iowa. A note, found in his pocket after his death contained a request that his body be sent to his native place for interment. His body arrived at Shiremanstown on Saturday morning a week in charge of relatives

We would advise the individuals who made last Thursday night hideous with their shricks and yells under the delusion that they were singing, to go into the woods the next time, where they will not interfere with the peace and quiet of any citizen. The noise they make, reminds us very much of a mule camp at feeding time, but the other mules, have the advantage, as they have an idea what they are braying for, and know when to quit.

Barn Burned. - On Saturday evening last, the barn of Mr. David Dunkelberger, of Spring twp., this county, was totally destroyed by fire. The barn contained his farming implements, about 400 bushel of old corn, a lot of oats, and about 400 bushels of wheat. The fire when discovered, had made such progess, that there was barely time to save the stock. Loss about \$4,000. A man by the name of George Gibson was arrested and brought to Jall on Sunday afternoon charged with having commit-

Amputated .- Mr. Thomas Campbell, a former resident of this borough, but now Post Master at Ottowa, Ohio, who received a severe wound in the foot during the late rebellion, from which he has suffered almost constantly ever since, vainly hoping to save it from amputa-

tion, was compelled to undergo the operation on Saturday, the 4th inst., and is improving as fast as any one could under the circumstances. Mr. C. is a son of John Campbell, Esq., deceased, a former resident of this place.

What is it?-The Harrisburg Patriot says: An animal, said to be dark in color, having a body five or six feet in length, has been seen in the water at the dam at Elder's mill, 3 miles east of the city, recently. The beast destroys large numbers, of fish, it is reported, and its presence in that locality has caused considerable talk, and the people along the valley are anxious to know whether it is some new species of amphibia-a sea lion, alligator or " hell-bender,"

The Storm which passed over Harrisburg on Sunday evening, the bulk of which appeared to move along the Blue ridge north of this city, caused considerable damage in the lower end of Dauphin and in certain parts of Lebanon county. The Lebanon Times of yesterday says :- " A fearful storm of wind, hall and rain, accompanied by almost blinding flashes of lightning, passed over New Market Forge, two miles northwest of Annville, on Sunday evening. Two of the forge tenement houses, one and a half stories high, one of which was leased to an old lady, who, fortunately, was not at home at the time, were blown some distance from their foundation; the office was partly unroofed and otherwise injured, the fences were blown down and trees were torn from the earth, the like of which was never witnessed before in that vicinity. -Patriot of the 16th inst.

The Locomotives Burned at Pittsburgh,-The Harrisburg Patriot says: Several experts have recently been examining the locomotives among the ruins of the burnt round house at Pittsburgh, and have reported that fifty of them are fit only for scrap iron. The round house on Twenty-eighth street is being cleared of all engines preparatory to being rebuilt. All the locomotives, worthless as well as good, are to be taken to the Altoons shops. In reference to repairing the injured locomotives Vice President Cassett says:

There were in all 104 engines in the two round houses, many of which are very badly injured. These will be sent to the shops at Altoona for repairs as quickly as they can be removed. The trucks under many of them gave way, and the work of digging them out of the ruins is no small job. Those which have already been repaired were but slightly injured. The damage to most of these will not exceed \$25. Before the riot many of these engines were repaired at this point, but all the tools as well as the workshops were destroyed by the fire and the artisans of the Altoona shops will derive the benefit. To repair all the locomotives many weeks will be required and the Altoona employees will have a busy time of it, commencing in a few days. Most of the locomotives now used in hauling freight and passengers have been brought here from other divisions.

In furtherance of these promises an order has been received at the car works at Altoona for building ninety cabs for the burned locomotives.

Tax- payers should consider whether the county should buy the Newport bridge, and if the Newport, why not the Millerstown bridge also? We have given such portions of the Act of Assembly as are necessary to a proper understanding of the legal machinery provided for the purchase of toll bridges by the county, and making them free from toll. county, and making them free from toll. In the present financial state of the county, the question is an important one to all its tax-payers.

Juniata County .- We copy the following from the Juniata county papers of last week

Daniel Shirk had a hand terribly lacerated by getting it into a threshing machine, which he was feeding in John Alexander's barn, in Fayette township, last Thursday, since then his life has been despaired of several times. Rev. Mr. McGill, of McCoysville while at his barn a few days ago, saw a copperhead snake pass under a barn door. About half the length of the snake had had already passed under the door, fearing it would escape into the straw in the barn, and having nothing to stop its progress, he seized it by the tail to draw

it out that he might the better kill it, but the snake resented the grasp on its tail, by swinging its head back and sinking its fangs into the hand of the Reverend gentleman. Mr. McGill has suffered a great deal from the bite, but at last ac-counts his health had improved.
