Some bee tree hunters of Sandy Hill were badly sold last week. After cut-ting for the honey they found they had got a yellow jacket's nest instead of a bee tree.

Mr. Abram Vandling, a former resi-dent of this county, died at Murphy's, Calaveras county, Cal., on the 13th ult. His death was caused by a fall received the day previous.

We call attention to the advertisement of Stephens & Beetem, the well-known Carpet House, of Carlisle. Their fall stock is now complete in every depart-ment. Call and see what they offer.

Y On Saturday night a week the house of Mr. John Williamson, at Liverpool, was entered by boring out the fastening of the door. Various articles were found in the morning thrown around, but nothing of value was found missing.

X Teachers for the schools in this bor-ough have been engaged as follows: For the high school, James W. M'Kee; for the second school, John M'Crosky; for the primary, Benjamin Belford, Schools to commence the 15th last to commence the 15th inst.

Sanderson ; Koziers, to Sallie Magee; Perry Furnace, to John M. Sanderson; Markels, to Jas. G. Neilson. The other four schools were held over till Saturday next, at 11 A. M.

Shuman Miller, of Loysville, this county, aged about 10 years, fell from a hickory tree, on Thursday, the 20th of September, a distance of about 18 feet.-Up to this date he has been unable to speak. His right arm is entirely powerless, but he appears to be conscious of all that is transpiring around him. The doctor says he is getting along very well, and appears to have hopes of his entire recovery.

Rev. Matthew B. Patterson, for many years a resident of this borough, died at Freeport, Illinois, on the 19th of September, 1877. He was pastor of the Presbyterian church in this borough many years ago, also Principal of the Bloomfield Academy. None of his relatives were present at the funeral, except his son. His only daughter is living with her family in Salt Lake Clty. Up to the time of his last illness, he had been vigorous and active. Two weeks before his death, he preached and delivered two Sunday School addresses.

Run Off.-On Monday evening of last week, while the Stage was standing at Elliottsburg, the horses started, while the driver was absent and soon began to run. There was one lady in at the time, but she managed to get out before the horses arrived at full speed. After reaching the top of the hill beyond the church, the frightened animals began to make good time, and kept up full speed till near Green Park, when one horse fell and the others became entangled in the harness and were brought to a stop. One horse was badly hurt and the Stage was caught on the fence and had a couple of the panels broken. It was very fortunate that the disaster was no greater.

The Weather .- B. M'Intire, Esq., hands us the following report of the weather for the month of September, 1877 .---Average of Thermometer at 8 o'clock A. M., 58° and 42', and of Barometer 30 inches, minus 5-tenths. Average of greatest degree of heat 70° and 30', and of lowest of cold 54° and 52'. Saturday the 1st was the warmest, the mercury registering 70° above zero, and Saturday the 22nd the coldest, the Thermometer sinking to 42. On the morning of this day (Monday) there was a slight frost, but it did not injure vegetation. There fell 6 inches and 5-tenths of rain.

Doings in the Register's Office .- The following is a record from the Register's office for September :

Letters testamentary.—Mary Ann Cri-ley, Liverpool twp., to Geo. W. Criley ; David McAllister, Carroll twp., to John McAllister, Sr.

Letters of Administration .-- John L. Singer, dec'd., Newport Boro., to Mary Jane Singer, of Bloomfield; Eliza M. Jackson, New Buffalo Boro., to W. H. Jackson, same place; Wm. H. Smith, Newport Boro., to Peter Smith same place; Catharine Neidigh, Jackson twp., to Michael Neidich same place; James A. Woods, Madison, to Annie E. Woods. ed some of the diseased hogs and penned them apart. They were fed on turnips and nothing else and all of them recovered. He says his experiments demonstrated the fact that turnips are not only a cure, but a preventative of cholera. He has imparted the secret to many farmers in the State, all of whom found the remedy sure. Major Millon states that unless the hog is too far gone to eat, the turnips will cure him. The remedy is a cheap one, and easily procured, and it can certainly do no harm for farmers to give it a trial.-Hannibal (Mo.) Clipper.

Badly Seared .- On Monday night of last week, the residents of Liverpool, living near the building occupied by Miss Kate Wenner and her mother were aroused by screams coming from that house. Upon asking the cause, they were told that some person had broken into the premises. The building was soon surrounded by the sheriff and a party so that the rascal could not escape when a thorough search of the house was made. The noise heard, which had been mistaken for a burglar making a foreible entrance, was found to have been caused by the falling of a mirror, which had broken its cord, and in its fall had brought down a pitcher standing under it, breaking both articles in many pieces.

A Harness Thief .- The Carlisle Mirror says : - Valentine J. Luckabaugh, of Perry county, is implicated in the stealing of harness and other articles from Mr. Samuel Witmer, of Hanover, York county. After recovering some of the harness, Officer Hayes and Mr. Witmer made a trip to Perry co., to the residence of Luckabaugh's father, in quest of the single harness, but failed to find it, though there was some other property there not in keeping with the surroundings. The elder Luckabaugh said that 'the boys had a secret hiding place along 'Whiskey Run,' near Boiling Springs, in which were concealed 17 sets of stolen harness and other property."

Reunion. — Fellow Comrades: Fears were entertained by many that the re-union this fall would be a failure on ac-count of hard times. The propriety of postponing the meeting to another year was discussed, but the conclusion arrived at was, that it would be suicidal to defer it. The reunion on the 18th of October next promises to be the largest ever held. The good people of Bloomfield will not be behind their neighbors in hospitality and decoration, to give you hospitality and decoration, to give you hearty welcome. The programme will hearty welcome. The programme will be announced in due time. I would simply state that Rev. A. H. Spangler, of Liverpool, will be the Orator of the day. His reputation as an orator will attract many to hear him. Six Brass Bands will be on hand to enliven the occasion. Major Geo. K. Scholl, Chief Marshall. Four companies of the late 208th P. V., will turn out, Co. F. com-manded by Capt. G. C. Palmer; Co. G., commanded by Lieut. J. D. Dunkle; Co. E., commanded by Lieut. S. T. Buck. There are other organizations which we hope will turn out. Any ar-rangements that can be made by other organizations should be reported at once. It is expected that a number of distin-guished soldiers will be present. Generals guished soldiers will be present. Generals Sherman, Hartranft McCandless and others have been invited. A cordial inothers have been invited. A cordial in-vitation to soldiers of adjoining counties is hereby extended to meet with us and "Rally round the Flag" again. So, come, boys, from hill and dale, and "Bally once again." Greet your com-rades, thereby smoothing down the rough edges of your mortal life. Permit me to correct a false impression that is entertained by many, *i. e.*, that the re-union is only for the gathering of sol-diers and not for citizens. No true sol-dier can entertain such an opinion of exclusiveness. He might with prooriexclusiveness. He might with propri-ety have said, when in the front of battle, he had no need of rations or sup-plies. The soldier was dependent upon the loyal citizen, who fed and equipped plies. the loyal clitzen, who led and equipped him while he was engaged in a more deadly conflict, therefore, he welcomes you to share his Joy. Come fathers and mothers, brothers and sisters, and be-hold the steady tramp of those who helped to save that dear, dear old flag. F. M. MCKEEHAN, Pres.

which is now largely used in many parts of the country. Some two years ago the deceased moyed to Chicago, where he met with an accident, a heavy piece of iron falling on his leg. The injured continued to grow worse, until amputa-tion was resorted to, which promised the best results for a while. He was, however, much reduced and weak from the suffering, and a few weeks since he returned to his home where he has been gradually sinking. His funeral took place on Wednesday afternoon at 4 o'clock. He was aged 24 years.

One day last week, a three-year old son of John H. Ritter, of Tyrone twp., fell off a horse and broke an arm. Dr. Hook was called and set the fracture,— The little fellow did not seem to mind his injury, and was moving about as lively as usual next day.

Jesse Johnson is unfortunate enough to live in Watts township, near to Mont-gomery's Ferry, which probably accounts for the fact that his house was robbed a few nights since, many articles be-ing taken, and others being thrown around promiscuously.

A few days since the house owned by Charles Snyder, in Liverpool, took fire from a defective flue. The roof was slightly damaged, before the flames were extinguished. He now thinks he will have a good chimney, as the flue has served him the same trick before.

A few days since a swarm of bees came and took possession of a hive on the premises of Mr Joseph Black, in Carroll twp. The hive was already occupied and such a general fight ensued between the two swarms, that Mr. B. was com-pelled to kill both swarms. This we consider a remarkable occurrence.

A number of our exchanges in refering to the eight years' sentence passed upon the horse thief, Houser, by Judge Junkin, speak of it as the longest sen-tence the Judge ever imposed. That is a mistake, as Judge Junkin passed a sen-tence of ten years upon John Baker at the May term of 1874.

An employee of the Pennsylvania railroad company, named Jacob Ernest, an ash pit cleaner—was instantly killed at Mifflin, early Wednesday morning, by the engine of the fast line castward bound. He was shoveling ashes out of the pit, and did not hear the coming of the "fast line" which struck him while running at a great speed.

List of unclaimed letters remaining in the Post Office, New Bloomfield, Perry county, Pa., Oct. 1st :

Mr. John O'Danner, Mr. Michael Kingsley, Mr. Edward B. Wherley, Mr. Geo. Young, 2. Persons inquiring for the above letters, please say they are advertised. S. ROATH, Post Muster.

Entertaining a Rascal.-A few nights since a tramp came along and asked permission to stay all night at the house of Mr. John Dum, and was allowed to stay in a room occupied by the boys. Shortly after retiring for the night the chap got up and took a bottle out of his pocket after which there was a very strange smell in the room. The boys laid still watching the chap and saw him go and try the doors of other rooms. They then got up and informed Mr. Dum who had him put out of the house. The fellow then went a short distance, when he gave a whistle and two other men appeared and the three went off together. There was undoubtedly a plot to rob the house which was happily frustrated. It is a great pity the chap was not arrested.

Turnips a Sure Cure for Hog Cholera .---Major John Millon, a well known citizen of Laplata, Macon county, Missouri, has great faith in turnips as a sure cure for the disease known as hog cholera. So great is his faith that he has filed a claim with the State government for the \$10,000 reward offered by the legislature for a remedy for that discase. Major Millon was a commissioner in the Confederate army. While acting in that capacity, he had charge at one time of many thousand head of hogs, which were collected together in Mississippi when the cholera broke out among them. Immediately on discovering the prevalence of the disease he says he began to exert himself to save as many as possible, keeping the infected ones apart. He had on hand, also, large quantitles of turnips, which he began to feed to the hogs. Very soon he observed a marked improvement, and then he made numerous experiments. He select-

Those who have seen the child since the accident report a shocking picture, the little sufferer be-ing so badly scalded that in many places the skin is broken.
