

The Bloomfield Times.

HOUSE, FARM AND GARDEN.

We invite communications from all persons who are interested in matters properly belonging to this department.

Removing Spots from Cloths.

Spots of sugar, glue, blood, albumen. On white goods, on dyed tissues of cotton and wool, and on silk, simple washing with water.

Spots of grease.—On white goods, soap water or alkalies; on dyed tissues of cotton, hot soap water. Ditto of wool, soap water or ammonia. On silk, benzine, ether, ammonia, magnesia, chalk, yolk of egg.

Colors of varnish, resins.—On white goods, and on dyed tissues of cotton and wool, turpentine, benzine, then soap. On silk, benzine, ether, soap; rub with care.

Stearine, tallow.—On white goods, and on dyed tissues of cotton and wool, and on silk, pure alcohol.

Vegetable colors, wine and fruit stains, red ink.—On white goods, vapors of sulphurous acid; hot bleaching powder solution, weak. On dyed tissues of cotton and wool, wash with warm soap water, or ammonia. On silk, same; rub softly and carefully.

Allzarine ink.—On white goods, tartaric acid; more concentrated as the spot is older. On dyed tissues of cotton and wool, weak solution, of tartaric acid if the color allows. On silk, same, with care.

Rust, black ink.—On white goods, warm solution of oxalic acid weak muriatic acid. On dyed tissues of cotton, repeated washings with citric acid if the color is well dyed. Ditto of wool, same; weak muriatic acid if the wool is of the natural color. On silk, no remedy.

Lime, lyes alkalies.—On white goods, simple washing with water. On dyed tissues of cotton and wool, and on silk, weak nitric acid poured drop by drop, and rub with the finger the spot previously moistened.

Acids, vinegar, fruit acids, mould.—On white goods, washing with water or hot solution of bleaching powder, weak. On dyed tissues of cotton and wool, and on silk, ammonia, more or less weak, according to the tissue and the color.

Tannins, walnut shell stains.—On white goods, Savelle water; bleaching powder water; concentrated tartaric acid. On dyed tissues of cotton and wool, and on silk, chlorinated water, more or less dilute, according to tissue and the color, and alternately washing with water.

Tar, wagon grease.—On white goods, soap, turpentine and jet of water alternately. On dyed tissues of cotton and wool, rub with pumice stone, then soap, then let stand; wash alternately with turpentine and water. On silk, same, but use benzine, and let a jet of water fall from a height upon the back of the spot.—Scientific American.

Singular Property of Tomato Leaves.

"I planted a peach orchard," writes M. Leroy, of the Society of Horticulture, Valparaiso, "and the trees grew well and strongly. They had just commenced to bud when they were invaded by the curetello, which insects were followed, as frequently happens, by ants. The idea occurred to me that by placing some tomato leaves around the trunks and branches of peach trees I might preserve them from the rays of the sun, which were very powerful. My surprise was great upon the following day to find the trees entirely freed from their enemies. Not one remained except here and there where a curled leaf prevented the tomato from exercising its influence. These leaves I carefully unrolled, placing upon them fresh ones from the tomato vines, with the result of banishing the last insect and enabling the trees to grow with luxuriance. Wishing to carry still further my experiment, I stepped in water some fresh leaves of tomato and sprinkled with this infusion other plants, roses, and oranges. In two days these were also free from the innumerable insects which covered them, and I felt sure, that, had I used the same means with my melon patch, I should have met the same result. I, therefore deem it a duty I owe to the Society of Horticulture to make known this singular and useful property of tomato leaves.

Valuable For Horses.

A piece of elecampane root, cut up fine and mixed with the feed of horses every day in spring, is an excellent tonic and blood purifier. They may show some hesitation in eating it at first, but will soon learn to like it and eat it readily; while the sleek, glossy appearance of their coats will give ocular proof of its beneficial effects. It is easily procurable in the pastures or roadsides of the Eastern and Middle States, and even as far west as Illinois. Its persistent use has been known to cure cases of the heaves when not too firmly seated.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALLED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. Glenn's Sulphur Soap produces the same effects at a most trifling expense. This admirable specific also speedily heals sores, bruises, scalds, burns, sprains and cuts. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it. The Medical Fraternity sanction its use.

PRICES, 25 AND 50 CENTS PER CAKE, PER BOX, (3 CAKES,) 50c and \$1.20.

N. B. Buy the large cakes and thereby economize. Sold by all Druggists.

"Hill's Hair and Whisker Dye," Black or Brown, 50c.

C. N. CRITTENTON, Prop'r, 7 Sixth Av. N.Y.
