The Bloomfield Cimes.

HOUSE, FARM AND GARDEN.

We invite communications from all person who are interested in matters properly belonging to this de-

Select Poetry.

Woman's Work.

To wash and bake, to mend and make, The weary steps of toll to take : To cook and scour, to dust and sweep, And all the house in order keep, To rise at morn and o'er and o'er Do duties done the day before, And know that in to-morrow's train The same things will come o'er again ; And often to herself to say, The old, old lines in weary way, "From dawn of day, till setting sun, Woman's work is never done."

To watch and pray, to gladly take Love's crosses for love's crowning sake; To love and grieve, to smile and weep, Her deepest thought in silence keep, To teach and lead, to hope and trust-Have trust betrayed-as woman must, To gently chide, to cheer and bless, And bear with patient tenderness Her burdens all; nor shrink away, But bravely look ahead and say, " From dawn of life to setting sun, Woman's work is never done."

Ashes as Cattle Feed.

The Maine Farmer says : One of our substantial subscribers, in a recent conversation gave his experience in treating neat stock affected with the habit of eating wood, chewing bones, etc. His cattle were one spring affected in this way: they became thin in flesh, refused to eat hay, and presented a sickly appearance. He put about four bushels of leached ashes in his barnyard and threw out to them about a shovelful each day. They all ate with evident relish. After turning them out to pasture he put one peck of dry ashes per week on the pasture .-They ate it all up and gnawed off the grass where it had been lying. The cattle began to improve, gaining flesh and looking better than they had for several years. He now gives one quart of ashes, mixed with the same quantity of salt, to twelve head of cattle, about once a week and finds it to agree with them wonderfully.

White Specks in Butter.

A correspondent asks the cause of hard white specks in butter, and how to avoid them. There are several causes for this defect. It always occurs with the milk of some cows, and in this case cannot be avoided. In other cases it is caused by an acid condition of the milk, it is then remedied by putting a pinch of soda in each pan of milk as it is set away. Sometimes it is caused by the milk standing too long and the cream being too sour, when particles of curd become mixed with the butter in churning. The proper course to pursue is to find out which of these causes is acting, and then apply the remedy.

Sprains.

If a sprain is nothing more than a sprain-that is, if no bones are broken or put out-wrap the part in several folds of flannel which has been wrung out of hot water, and cover it with a dry bandage, and rest it for some days or even weeks. Entire rest at first, and moderate rest afterwards, are absolutely necessary after a sprain. If it is in the ankle, the foot should be raised as high as may be comfortable; if in the wrist. it should be carried in a sling.

A Bite from a Venomous Snake.

Suck the wound for several minutes .-No danger need be apprehended from doing this, as venom of this sort does not harm when it passes into the stomach, but only when it gets into the blood. Of course the saliva need not be swallowed. Bathe the place copiously with hot water, to encourage bleeding, and tie a bandage tightly above the wound, between it and the heart. Procure medical aid as soon as possible.

An experienced farmer in Franklin county thinks he has discovered the true cause of smut in wheat. He informs the editor of the Waynesborough Record that it comes from seeding the ground with wheat that had been harvested before it was well ripened. He has been putting this theory into practice for a number of years, and says his grain has been free from smut, except one year, when he had not enough of the well ripened seed and took several bushels of the more early harvesting, and of the latter seeding had plenty of smut, the other being entirely free from it. This would seem to be pretty conclusive evidence of the correctness of his theory.

SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SRIN; A HEALTHFUL BEAUTIFIER OF TIME COMPLEXION; A RE-LIABLE MEANS OF PREVENTING AND RE-LIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTARY, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soup, besides cradi-cating local diseases of the skin, banishes defects of the complexion and imparts to it gratifying clearness and smoothness

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. Glenn's Sulphur Soup produces the same effects at a most trilling expense. This admirable specific also speedily heals sores, brukes, scalds, burns, sprains and cuts. It removes dandruff and prevents the hair from falling out and turning coay. out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it. The Medical Fraternity sanction its use.
