Distressing Death from a Cat-Bite.

About seven weeks ago Mr. Isaac W. Navy, who was the oldest lamplighter in Boston, was sitting on the steps of his residence, No. 11 Charter street, when a cat crossed the street and, coming up to him, rubbed against his leg. He reached down to pat the cat on the head, when the animal bit him on the right thumb. He thought nothing of it at the time, but the thumb did not begin to heal until about two weeks ago, when it discharged a small piece of bone. Sunday night he felt a pain in his arm and a general feeling of lassitude, and Monday morning he was worse and found it impossible to drink a glass of water.

He consulted Dr. Street, who advised him to go to the Massachusetts General Hospital, which he did, and where he has remained. He was rational up to Tuesday night. Wednesday morning he said he had slept about four hours, but during that time he had been wandering about his room and the corridor outside. He complained of a feeling of suffocation and wanted the windows opened. At nine o'clock he drank a wineglassful of water. After that time he grow worse, had convulsions, and died at half past one next afternoon. He was a member of the Joseph Warren Lodge of Masons and of the Lamplighters' Association.

A Town Submerged.

MAY'S LANDING, N. J. September 17 .-The dam above Wood's cotton mills, on Egg Harbor river race, bursted last night, causing great damage to property. When the dam gave way the whole body of water seemed to burst forth in a single huge columu, and the town was submerged in a few minutes. Bridges, lumber and coal piles, and in fact all things moveable, were borne away before the flood. The villagers were aroused by the crushing in of the windows and doors and the rush of a current of muddy, fithy water, carrying lumber sticks, coal and stones through their houses. A scene of the wildest excitement followed. Several persons are reported lost, and it is said that two bodies, one of a woman and the other of a child, have been washed up on the river bank three miles below the town. Great numbers fled from their houses and escaped through the rushing waters to high grounds. Many of these were in their night clothes, few taking time even to catch up their clothing .-The total loss to coal and lumbermen is estimated at \$30,000. This does not include the great damage which results from the destruction of furniture and household effects.

From Chester G. Parkee, of Oneida, N. Y.

"For several years I was troubled with an affection of the lungs and throat, accompanied by severe cough, which threatened serious inroads upon my constitution, when I was induced to make use of Dr. Wistar's Balsam of Wild Cherry. To the astonishment of myself and my friends I was entirely relieved and cured. I cheerfully recommend the Balsam to the public as a safe, sure, and reliable medicine for all diseases of the throat, chest, and lungs."

50 cents and \$1 a bottle. Sold by all druggists.

Be Ye Like Foolish.

"For ten years my wife was confined to her bed with such a complication of ailments that no doctor could tell what was the matter or cure her, and 1 used up a small fortune in humbug stuff. Six or seven months ago I saw a U.S. flag with Hop Bitters on it, and I thought I would be a fool once more. I tried it, but my folly proved to be wisdom. Two bottles cured her, and she is now as well and strong as any man's wife, and it only cost me two dollars. Be ye like foolish." H. W., Detroit, Michigan,

What is wrong with the Oats.

The Phil'a. 'North American' of Tuesday last says: Henry Snyder, of 1331 Randolph street, who had sixteen head of horses for laboring purposes, on Saturday bought a load of oats from a farmer, and soon after he fed his horses for the first time from the new load of feed one of them sickened and died. Yesterday morning three more took sick and died in the same way as the first.

Not a Nice Drink.

A Rockville, Conn., man noticed that the water in his well had an unpleasant taste. The well was closed up with bricks, and water was pumped up through a lead pipe. He opened the well and found the water thrick with putrefying potato bugs. He used Paris green on a a potato patch near by during the summer months, and thinks those found in the well are recent

The clock bed was the invention of an Austrian, in 1858, and was constructed so that pressure upon it caused a soft and gentle air to be played, which continued long enough to lull to sleep the most wakeful. At the head was a clock, the hand of which being placed at the hour that the sleeper wishes to rise, when the time arrived the bed played a march (spontaneously) with drums and cymbals, enough to rouse the Seven Sleepers.
