

The Bloomfield Times.

HOUSE, FARM AND GARDEN.

We invite communications from all persons who are interested in matters properly belonging to this department.

Good Advice.

An Indianapolis exchange gives this advice to farmers: "We took occasion one year ago to advise farmers to market their wheat promptly as soon as they got it threshed, and those who followed our advice profited by it. We now take occasion to repeat that advice, and urge upon the wheat-growers of Indiana the importance to them of threshing early and marketing early. Our reasons are briefly these: The rule is that the early market is the best market. There is a continued liability to loss by fire, from the day it is garnered until it is marketed. The money at interest will increase in value more rapidly than wheat will, even if there is a general increase in price. The most successful farmer is the one who markets the produce of his farm promptly as soon as ready for market."

Neuralgia and Rheumatism.

A very simple relief for neuralgia is to boil a small handful of lobelia in half a pint of water till the strength is out of the herb, then strain it off and add a teaspoonful of fine salt. Wring cloths out of this liquid as hot as possible, and spread over the part affected. It acts like a charm. Change the cloths as soon as cold. Rheumatism can often be relieved by application to the painful parts of cloths wet in solution of sal-soda in water. If there is inflammation in the joints, the cure is very quick, the wash needs to be lukewarm.

Dr. Ely McClellan, in the Louisville Medical Times reports the case of a child suffering from a severe scald involving the hand and fore arm of right side. When brought to the doctor the child was in a terror of agony and almost unmanageable. The injured arm was carefully wrapped in soft cotton cloth which was soaked with a saturated solution of the bicarbonate of soda, and in a few moments the pain was entirely relieved and the child was sleeping. The use of the solution of soda was continued, no other treatment being necessary, and the convalescence was rapid.

A successful turkey-raiser feeds the young chicks, during the first eight days, on eggs boiled hard and minced; during the second week he adds bread-crumbs, chopped with parsley and onions; during the third week he keeps back the eggs, and only continues the bread and vegetables; afterward, instead of the bread, he gives moistened meal, boiled peas, and, above all, millet, of which young turkeys are very fond. When the birds are sickly, they are easily cured by making them swallow a pepper-corn, their bills being carefully opened, to avoid hurting them.

Seth Green says: "If every man will look over his own premises (if your neighbor will not look over his, look it over for him,) and empty all the water out or cover up all vessels containing rain water, you will not be troubled with mosquitoes. The wigglers in rain water are the young mosquitoes. I have hatched millions of them and fed them to young fish. One keg or barrel filled with rain water and set in the sun will annoy a whole neighborhood."

Farmers are frequently troubled with their wheat moulding after it has been put in the bins. If your wheat is damp and liable to mould, put a few stones or bricks in the granaries, and after leaving in one day, take them out, and if they appear damp, put in others that are not moist, and at the end of two or three days the wheat will be perfectly dry and rattle like shot when handled.

Rice Waffles.

To one cupful and a half of boiled rice add two cupfuls of flour; mix it with milk. The batter must be rather thicker than pancake batter. Add a little salt, then beat two eggs very light, and stir them in the last thing, giving it a good beating. Bake in waffle-irons.

It is said by a farmer who has tried the experiment so often as to be sure of his ground, that buttermilk poured over the back of a scurvy pig will entirely and speedily remove the scurf.

A very good dust brush may be made by cutting a cross-wise strip of bed-ticking into fringe and tacking it around a wooden handle.

If you will pour a little vinegar in the water you wash blue clothes in, it will keep them bright.

HALE'S HONEY OF HOREHOUND AND TAR FOR THE CURE OF Coughs, Colds, Influenza, Hoarseness, Difficult Breathing, and all Affections of the Throat, Bronchial Tubes, and Lungs, leading to Consumption.

This infallible remedy is composed of the HONEY of the plant Horehound, in chemical union with TAR-BALM, extracted from the LIFE PRINCIPLE of the forest tree ABIES BALSAMIFERA, or Balm of Gilead.

The Honey of Horehound SOOTHES AND SCATTERS all irritations and inflammations, and the Tar-balm CLEANSSES AND HEALS the throat and air passages leading to the lungs. FIVE additional ingredients keep the organs cool, moist, and in healthful action. Let no prejudice keep you from trying this great medicine of a famous doctor who has saved thousands of lives by it in his large private practice.

N. B.—The Tar-Balm has NO BAD TASTE or smell.
