SECRETARY SCHURZ said in his Cincinnati speech that the national Treasury is now fully ready to resume specie payments, and is only prevented from doing so by the strict letter of the law.

THE ELECTION in Colorado on Tuesday last resulted in the success of the Republican ticket by about 2,200 majority. Judge Belford is elected by a large vote. The Greenback vote of the State was about 1,200.

GENERAL HALBERT E. PAINE, of Wisconsin, has been appointed Commissioner of Patents. His commission will be prepared without delay. He is now in Washington but will not enter upon the discharge of his duties till the 1st of November.

TURKEY has a currency exclusively of paper based upon the whole wealth of the country, and yet she is not happy. It has declined during the past week at the rate of one per cent. a day, and its tendency is still downward.

It is reported that at the close of a Greenback meeting in a Maine town the other evening, a collection was taken up to pay the orator of the evening for expenses incurred. The hat was passed around, and when it was emptied it was full of paper inscribed, "This is 25 cents," "This is 50 cents," and though the amount footed up to quite a large sum the orator was not happy.

THE Secretary of the Treasury promoted O. H. Irish, of Nebraska, late Assistant Chief of the Bureau of Engraving and Printing of the Treasury Department, to be Chief of that Bureau, vice McPherson, resigned.

Oil Lands Claimed by the Government.

The law officers of the government have taken steps to eject parties from the possession of about 1000 acres of land in the Pennsylvania oil regions. This land was taken in part payment of a debt of about \$60,000 due the United States by the Venango County Bank.

Some Comparisons.

A man now who gets his dollar a day can buy with it, sixteen yards of calico. In 1864 his wages at a dollar and a half per day would buy four yards.

A man now who gets a dollar a day can buy with that sum, twelve yards of good muslin. His dollar and a half in 1864 would buy him but three yards of same quality.

A man now who earns a dollar a day can buy with his wages for three days a good pair of boots. In 1864 his dollar and a half a day would only pay for a pair of boots after four days' labor.

A man now who earns a dollar a day can buy with it ten pounds of sugar. In 1865 his wages at one dollar and a half per day would have purchased him only four pounds.

A man who earns one dollar a day can buy with his day's wages five pounds of coffee. In 1865 his day's wages at one dollar and a half per day would purchase him three pounds.

A man who now earns a dollar per day can buy with it sixteen quarts coal oil. In 1865 his dollar and a half per day would have bought him four quarts.

A man who earns one dollar per day now, can buy with it four yards of good pants stuff. His one dollar and a half per day of 1865 would have bought him three yards.

This list of comparisons might be greatly lengthened, but the above will do for the present to show how much more can now be had for one dollar than could be had in 1865 for one dollar and a half.

Yellow Fever Reports.

The fever is spreading rapidly at Grens, where the Howard Committee are feeding forty destitute families.

The New Orleans Relief Committee have made another appeal to the Secretary of War for rations for the destitute.

Holly Springs physicians reported fifteen new cases and ten deaths Thursday. Every store in the place was closed.

At Canton, Miss., the fever has taken a very fresh start, and is said to be more malignant. Seventy-five cases are under treatment.

The Howard Association has received an earnest appeal for aid from Dr. R. H. Terry, of Haynes Bluff, in which he details the destitute condition of the people. He has over 100 cases of fever under treatment, and the epidemic is steadily increasing.

The disease is spreading all through the adjacent counties. They all look to us for aid, and we are doing all in our power to relieve their necessities. Delta, Louisiana, has twenty-one cases, and three deaths have occurred within the last twenty-four hours.

Trouble in Luzerne County.

A dispatch from Wilkesbarre is as follows: "Nanticoke, a borough of several thousand inhabitants in Luzerne county, is experiencing a local sensation of the most perilous character. The question at issue is the management of the schools. The labor party elected a new school board last spring by handsome majorities, but, owing to the omission of specifying the length of term to which each man was elected the county courts have decided that the board is not qualified to act."

The sheriff has sworn in 150 special deputies, who, armed with muskets, under the command of Deputy Sheriff Conniff, are charged with the responsibility of maintaining peace. The parties to the dispute are worked up to the greatest pitch of excitement.

An Emigrant Swindler Bagged.

On the steamer Illinois, which arrived here on Monday morning, were two German emigrants, steerage passengers, by the names of August Gremel and Joseph Gantzer. They came from Elsas, Germany, and had purchased from the American Steamship Company's agent in Antwerp, besides the passage tickets, receipts for railway tickets from Philadelphia to St. Paul, Minn. On the last day of the voyage they made the acquaintance of a German giving the name of Henry Myers, who was working his passage in the engineer's department of the steamer.

Pennsylvanians Die of Yellow Fever.

The following letter was received at the Patriot office last week:

MONTGOMERY, Alabama, Sept. 24th.—Dear Editor: The yellow fever is here; six deaths yesterday—Messrs. Ed. Hunt, Dr. J. Picholi, I. J. Jenks, J. M'Gill, N. Irvin and Cal. Devenie—all took sick and died within twenty-four hours.

Great Bank Failure.

LONDON, October 2.—The liabilities of the City of Glasgow bank, which closed its doors to-day are stated at \$30,000,000. The bank was established in

1830, and had fifty to sixty branches. This is the heaviest bank failure in Scotland since 1857, when this concern also suspended. The other Scotch banks were asked for assistance, but after examining the books, at a meeting yesterday, refused to do more than redeem the note circulation of the city of Glasgow bank, which is stated at three and a quarter million dollars.

The Grain Market Depressed.

NEW YORK, October 3.—The failure of the banks of Glasgow and Lancashire had a very depressing effect upon all grain markets. Wheat in Chicago dropped five cents, and in Philadelphia, New York and Baltimore, one cent each. Corn was one cent lower in each city.

Dangerous Butter.

Albert Harris, of Union county, Ind., and his family of a wife and three children, were taken suddenly ill a few days ago. A physician pronounced the disease milk sickness, caused by using bad butter.

A leopardess in a circus at Davenport, Iowa, gave birth last week to a cub that was pretty enough to eat, and she ate it ere it had arrived at the early age of five minutes.

Miscellaneous News Items.

Father McNamara, a deposed Catholic priest, was mobbed in New York on Sunday, but escaped injury by the assistance of the police.

In the Superior Court of Fairfield county, Conn., Edwin Hoyt, convicted of the murder of his father, was sentenced to be hanged on the 24th inst.

Francis Darley, a well-to-do farmer, was found dead in the road near Coaticook Post-office, Vt., on Saturday, presenting every appearance of having been murdered. Two men are under arrest.

A destructive cyclone visited the South coast of Hayti on the 3rd and 4th ult., causing the loss of many lives and the destruction of a great amount of property. Two or three towns were almost obliterated.

The Grand Jury has found true bills of indictment against Robert King, Isaac K. Creamer, James H. Watson, Isaac R. Mullock, George Kearney and George Bell, charging them with embezzlement, &c., while clerks in the Water Department at Philadelphia.

A special from Newark, Ohio, says that two tramps entered the house of Mr. McMillen, a widow lady, on Tuesday evening, and committed a brutal outrage. A vigilance committee had started in pursuit of the villains, and they will doubtless be dealt with in a summary manner if caught.

NEWPORT, R. I., October 1.—Hon. Geo. Bancroft, the historian, while out riding this afternoon in company with a lady was thrown from his carriage, his horses having become frightened. He was seriously injured about the head. The lady and coachman were somewhat injured. Fears are entertained that Mr. Bancroft's legs are broken.

NEW LONDON, Conn., October 1.—It has transpired that in the matter of Wesley W. Bishop, of Norwich, charged with poisoning his wife, Harriet Bishop, Chas. M. Cobb, Jr., has made a confession implicating Kate M. Cobb, his paramour in guilt. Bishop confesses criminal intimacy with Mrs. Cobb, the procuring of poison for Mrs. Cobb with which to destroy the life of her husband and his knowledge that she administered it.

A woman of South Bend, Indiana, who by hard work and economy had become independent, had a daughter slowly dying of consumption. As her mother would not even give her child the necessities of life the invalid requested the authorities to admit her to the poor house. While she was there the mother learned that the child's expenses would be assessed upon her property, and so sent to have her brought home in a wheelbarrow.

A special dispatch says that last Monday night about seven o'clock, at Akron, Ohio, two policemen proceeded to an old forge within the city limits to arrest a tramp, on suspicion of being concerned in the Orville post office robbery.

When they reached the forge they were met by a gang of thirty tramps, who chased them to the city at the point of the revolver. At this incident great excitement prevailed in the streets, and the mayor has issued a call to Col. D. A. Thomas to get a company of the Eighth regiment in order to arrest the tramps.

The Gold Hill "News" of September 14th says: There is a copper-colored, almond-eyed son of Tartary in Gold Hill who must obey Kearney's injunction.—About six months ago he bought 500 shares of Bodie stock at forty cents a

share, and when it reached \$58 he sold out, putting the entire capital in Sierra Nevada at \$9 a share. When this favorite was booming the other day he sold his stock on the street for \$100 a share. The coin thus obtained was immediately converted into United States bonds, and the Mongolian is now so rich that he has quit sawing wood, and will not accept any kind of a situation less dignified than that of a dishwasher in a restaurant.

Not a Beverage.

"They are not a beverage, but a medicine, with curative properties of the highest degree, containing no poisonous drugs. They do not tear down an already debilitated system, but build it up. One bottle contains more hops, that is, more real hop strength, than a barrel of ordinary beer. Every druggist in Rochester sells them, and the physicians prescribe them."

Health is an inestimable jewel. The cough that deprives you of it may take your life too. One bottle of Hale's Honey of Horehound and Tar will avert the evil, and save you from consumption.
