November 25th, 1878, MR. EDITOR :- Being a reader of your MR. EDITOR :- Being a reader of your valuable paper, and formerly a resident of Perry county, and having promised many friends to write what I thought of my western home, by your kindness I will respond through your paper. About two years ago I took H. G's. ad-vise, (young man go west and double your money), located in south central Missouri, 25 miles north east of Jeffer-son City, Calloway county. The sur-face of this county is broken, being about the same as Perry county without the mountain. The soil is a yellow clay, ranging between Gunbo and Crawfish, about ‡ of the soil is timber land, ‡ about i of the soil is timber land, about $\tilde{\tau}$ of the soil is timber land, a prairie climate, seems to be on the ex-treme either dry or wet. The principle products are tobacco and corn, wheat raising has begun lately on timber lands where it has been successfully raised. Markets are low here, there being no markets are low here, there being no grain shipped hence no merchants. grain shipped hence no merchants. The mineral is a soft coal which is found imbeded in timber land it sells for eight cents per bushel. Politics are all one sided like a handle on jug (Democratic). This having been a slave state, about i are white, the remaining $\frac{1}{2}$ negroes, of all shades and colors. Improved lands sell here from \$1 to \$15 per acre. Taxes are high, schools and churches con-venient. There are about 12 or 15 Pennsylvania families located here, the cry with all is, if I could only sell and cry with all is, if I could only sell and go west. Now if any think I am going to advise them to come west, they are fooled, for I believe in all seeing for themselves, and you all know the rail themselves, and you. road runs both ways.
