A Horse Runs Away .- Mr. Samuel Tress. ler, of Juniata twp., was in town on Friday attending to some business. At the hardware store of Mr. J. W. Frank he had his horse hitched, and the animal was spirited, showing signs of having been well kept. In some way or other his bridle came off, and before the bit was gotten safely back into his mouth and the choker again adjusted around his neck, his nerves became unsteady and the next moment he was tearing up Second street at a rate equal to the famous Winchester gallop by Gen. Phil. Sheridan during the late war. The vehicle that clung close to his heels was a light spring wagon, which was hurried along so fast that it was next to impossible to "see the wheels go round." In going down Oliver street, and when half way to Front street, one of the wheels flew off. With the remaining three, the now thoroughly frightened animal sped on until Robert Taylor's barn was reached. There he struck a bee line for across the fence, landing in that gentleman's wagon-she l where he was secured. The wagon was considerably used up, and the horse severgly cut low down on the right hind

Letter from Leadville, Colorado.

The following letter from a young man in Leadville to his brother in this county

will be interesting to some of our readers :

LEADVILLE, Col., April 20, 1879. LEADVILLE, COL., April 20, 1879. BROTHER E. : — The city of Leadville is sit-unted at the foot of the Morquito Range, 135 miles from Cannon City and the same distance from Denver, via South Park on the west. Twen-ty miles distant is the Dome of the Continent (the Snowy Range.) On the other side of this range the waters flow to the Pacific coast. The

Arkansas river is four miles from us, and the headwaters of it are about twenty-five miles. Leadville is 10,500 feet above the level of the sea, and its floating population is variously es-timated at from 15 to 20,000, and is a city of the second class in Colorado. Us business timated at from 15 to 30,000, and is a city of the second-class in Colorado. Its business houses are solid and compact, and one feature is, that nearly every other door is a saloon, and you will see the sign, "Two Drinks for 25 Cents," hanging in the windows. Gambling is carried on largely night and day, and no regard is paid to Sunday. The streets are crowd-wed all day, making them almost impassable. Miners and merchants, and, in fact, everybody keep their places of business open, and do as much of it on Sundays as week days. There are three daily and weekly papers published here; 34 saw mills are in and around the city; 5 smelting and reduction works.— The mountains are covered with prospect shafts and mines, some of which are very rich. Among the richest near Leadville (on Fryer Hill, 1 mile from town) are : the Little Pittsof the second-class in Colorado. Its business Among the richest near Leadville (on Fryer Hill, 1 mile from town) are : the Little Pitts-burgh, Little Chief, New Discovery, Chrysallte, Vulture, O. K., and Little Etta. The above take the mineral known as red carbonate, while a mine called the Galagher, takes a sand carbonats which looks like a coarse, yellow sand, but is very rich, running from 880 to 1,000 ounces per ton. A mine known as the Double Decker takes silver and gold, which I am in-formed is very rich also. There is a mine known as the Breeze Iron Mine which found free gold to a great extent and recently sold free gold to a great extent and recently sold for \$60,000. Although this camp is noted for sliver, yet we have gold in considerable quantities

Cumberland County .-- We copy the following from the Cumberland county papers of last week :

Dapers of last week : On Wednesday afternoon of last week the barn on a farm of B. K. Peffer, on the York road, some five or six miles south-west of Carlisle, was burnt to the ground with all its contents. Some boys had been burning brush but a short dis-tance away from the barn, and it is sup-possed that the fire was caused by their carelessness. Partly covered by insur-ance. ance.

our lawyers: "On Friday morning of last week, we had the honor of a call from A. M. Markel, Esq., a rising young lawyer of New Bloomfield, Perry county, who had been to our town on some legal business. Mr. M. is a simon pure Democrat, and cordially favors the renomination of Tilden and Hendricks for our national ticket in 1880."

On Saturday evening last, at about ten o'clock, a customer in the confec-tionery store of Jacob F. Ludy, in Cris-ville's building, on Rairoad street, ac-cidentally struck the chandeller suspend-ed from the ceiling in the centre of the room and precipitated it to the floor. The four coal oil lamps it held simul-taneously broke or exploded and the oil and fire soon spread over the floor and was extinguished with great difficulty, after burning a hole through the floor and scorching the counter.—*Chronicle*.

after burning a hole through the floor and scorching the counter.—*Chronicle.* Influenced doubtless by the almost suc-cessful attempt of the McKeehan robbers to break jail, a party of five negroes, named George Washington, Theo. Lee, Jack Reed, Bob Humphries and a little boy, went to work, in broad day-light, last week to dig a hole through the wall of their cell, in the north-east corner of the county prison—second floor. They were "given away" by one of the im-mates of the prison, who was working in the yard, heard the noise of their picking and informed turnkey Holmes, who put a stop to the work at once. The prisoners had made a tremendous hole in the wall, and day-light shone through. It is not supposed that the desire of the prisoners was to escape—for they had no implements wherewith to reach the ground or scale the walls if they had not been discovered. They are a very trouble-some crowd—young Washington being perfectly incorrigible and pure vicious-ness is the only motive assigned, as they have defaced every cell they have been in.

Call in and see it operate, or send in your old pillows and beds and have them made equal to new.
