#### Brief Items.

"The Fourth" in this place was as quiet as a Sunday. The noisy citizens either went to Harrisburg or went off on a fishing excursion.

So far the farmers in this vicinity have had remarkable good weather for harvesting. The wheat generally turns out fully an average crop.

The Lewistown Academy has an advertisement in this week's Times that every one interested in good schools should read.

OA few evenings since Mr. Philip Fickes, of Oliver twp., had a colt that dropped dead as his nephew was riding it home from mill. No cause for its death is known.

A Hollidaysburg man challenges anybody in Blair county to walk from Hollidaysburg to New York for one or two hundred dollars, each man to carry 60 pounds of weight in a basket.

Q A few days since Wm. Owings of ackson township, found while mowing a land turtle with date 1801, and the letters "A. W." marked on the shell. He thinks this an old settler.

Cumberland county jail now contains but thirteen court prisoners and vagrants and disorderlies, making twenty-two in all. This is a less number than has been there for years.

On Friday last, Miss Annie, daughter of Mr. Jacob Crist of this borough, was unfortunate enough to fall while climbing down a cherry tree at her father's farm, fracturing one of the small bones below the knee.

A young man named Charles Beck from Hagerstown, attempted suicide while sitting on a store box in Chambersburg Friday morning. He was in a melancholy mood and under the influence of liquor, and drawing a knife from his pocket he thust it into his throat, but was deterred from accom-plishing his purpose by a bystander. The wound inflicted was of a very slight character.

Says the Sunbury "Democrat": Mr. Daniel Williamson, a tailor of this place, has received letters patent for a place, has received letters patent for a grain binder, to be used on self-raking reapers. The Osborne reaper binds with wire and the Champion binds with twine, but Mr. Williamson's invention binds with straw taken from the sheaf. Among reaper men this invention is regarded as very valuable, the inventor having already received large royalty offers.

Death from Matches .- Recently a little daughter of Mr. John Keefer, aged about three years, residing in Horse Valley, Franklin county, accidentally got hold of some matches, and chewing the substance from their heads, died from the effects thereof in a short time after.

O Perry County Paint .- Among the new industries of Perry county we can now claim a paint factory. A mine has been opened near Falling Springs from which they take out an oxidized iron, that when ground is as smooth as the finest flour, and of a color a little brighter than the best venitian red. When mixed in oil and used as a paint it holds its color even when applied to iron and heated. They also take out a yellow stone which makes a paint resembling yellow ochre. A mill has been put in operation by Mr. Frank Gibson for the purpose of grinding and preparing the paint for market, and as the deposits of both colors seem inexhaustable, the discovery promises a large addition to the resources of Perry

Sad Accident .- Mrs. Margaret Rarick, wife of Jacob Rarick, of Granville, Mifflin county, was killed by falling down stairs. The night being chilly she arose from her bed and in the dark went to get a hap. On returning, when she passed the top of the stairs, she either tripped or mistook the way and fell down, bursting open the door at the foot of the stairs, and was found on the kitchen floor below, a moment afterward by her husband. When first picked up she was apparently unconscious, but shortly afterward revived and said : "Lay me down, I am dying," and in a half hour she was dead .- Democrat and Register.

Our Railread. - To-day (Monday) the engineers begin to run the line for the road to connect this town with the P. R. R. So many persons believe that Losh's Run would be a far more preferable point for connection than Duncannon, that the engineers will run that line to see if practicable, and if it should prove to be so, that will no doubt be the route adopted. There are many advantages in that route, prominent among which are, the better coal facilities, the shortening of distance, and the better chance for connecting with the Pennsylvania road at a great saving in right of way. Either one of these advantages would be sufficient reason for taking that route should it prove feasible, and there seems to be no doubt but the survey will prove such to be the case. At any rate it seems to be the firm determination of the citizens of this place to have a railroad outlet, and it is important that good judgment should be used in selecting the connecting point.

June Weather Report. - B. McIntire, Esq., hands us the following report of the weather for the month of June, 1879:

Average Thermometer at 8 o'clock A. M., 65°, 30' and of Barometer 30 inches minus 6 tenths. Average of greatest heat 74°, 58'; of cold 57°, 9'. There fell 5 inches of rain. Saturday, the 28th, was the warmest day, the mercury running up to 830, and the coldest, Saturday, the 7th, the Thermometer registering 427. This was the coldest weather of June, since 1864.

Juniata County .- We copy the following from the Juniata county papers of

On Sabbath evening, young Mr. Mc-Manigle, of Port Royal, and two young men, friends, were driving along by McCulloch's dam, in Milford township. Suddenly the horse took a spell, and backed the buggy and himself off the road into the dam and was drowned.— The young men escaped without injury, except such as may arise from a nervous shock.

A fourteen months old child of Wat-son Crimmel, who lives at Van-Dyke sta-tion, crept away from the house of its father, last Thursday, up the bank to the railroad track and onto the near rail just as a locomotive came along. The en-gine was going eastward. The time was between 11 and 12 o'clock in the forenoon. The engineer did not see the child until it was too late to stop the locomotive, and when he caught sight of the object on the rail, an instant before the engine struck it, he did not know that it was a child; he thought that it was a small animal, a dog or cat. The child was cut in two child was cut in two.

On Sunday evening while Mr. Wm. Wharton, of Spruce Hill, was out riding in a buggy, accompanied by two ladies, the horse managed to run away, throwing out the occupants, severely bruising Miss Annie McMeen about the arms and shoulders, and Mr. Wharton had one of his fingers broken. Miss Sadie Guss escaped without injury.

Cumberland County .- We copy the following from the Cumberland papers of last week:

A few days ago a valuable cow belonging to Alfred Wagoner, of North Middleton twp., was killed by falling from the barn floor into the yard.

On Friday morning officer Zinn, of Mechanicsburg, arrested a young man named Henry Harrison, on suspicion of being concerned in the recent rail road robberies at Hagerstown and Newville. He is held for a further hearing. He is beld for a further hearing.

The "Volunteer" states that Mr. Al. Huston, of Penn township, recently turned his cattle into pasture and when he went for them in the evening, he was minus a thirty-two dollar cow, the new clover having caused her to swell

On last Sunday evening, a little girl about four years of age, daughter of Mr. David Weary, of North Middleton twp., was severely kicked by a colt. At first it was thought the child was killed, but it soon became conscious and is now quite well.

Charles Sener, son of Mr. Jacob Sener, on Friday last was caught in the gear-ing of a machine at Gardner & Co.'s Car Works, and bad one of his arms badly lacerated. He was also considerably lacerated. He was also considerably cut and bruised about his body, and almost completely stripped of his clothing. Still, in one sense it may be considered a lucky escape.

The old dog peddler and wife were arrested last week on complaint of citizens of South Middleton, to whom they had become a nuisance. They were committed to jail, and their thirty-three dogs and a goat were lodged in the yard of that institution. During the night the half starved dogs killed sixteen fancy chickens for Sheriff Gill, worth one

hundred dollars. The old pair found that misfortunes never come singly, for the day after their liberation the goat died. The "Mirror" says it "furnished a square meal all around."

On Thursday of last week, the dead body of an infant was found, secreted in some bushes along the railroad near Mechanicsburg. Coroner Smith held an inquest, and returned a verdict of death from involuntary neglect. The child was born while the mother was standing along the railroad, a half mile from help.

On last Saturday evening, D. E. Taylor and wife, residing near Oakville, were returning home in a buggy, and when in the vicinity of Maj. Sterrett's, in Newton twp., the front spindle of the carriage broke, the horse started to run, and upset the carriage, breaking the top entirely off and throwing the occupants out. Mrs. Taylor was severely hurt about the head and face, and their little girl was somewhat injured.

On Thursday last the rail road hands On Thursday last the rail road hands were putting in a new switch in the car-works below Carlisle, and found it necessary to put in a short piece of rail, which Mr. Leonard Parker and Leonard Yeager went to work to cut. During the rail operation Yeager held one foot on the rail to steady it while Mr. Parker used a heavy sledge. Yeager attempted to change feet when he was struck on the left foot by the sledge, which blow cut off the great toe of that foot. The wound was promptly dressed.

The Newville "Star" says: A sow belonging to Mr. John Killian of this place, last week among a litter of pigs gave birth to a somewhat remarkable deviation of nature. It is two perfectly formed pigs with one head. It commences to unite at or near the navel and gradually blends into one perfectly shaped head. The head has but two eyes, while there are four ears, two at the proper place while two are near together at the back part of the head. There is nothing of the monstrosity feature about this freak of nature, but is simply two pigs with one head and possibly one throat, dividing into two perfectly formed bodies, and it is the opinion of Dr. G. W. Stewart, in whose possession it is, preserved in alcohol, possession it is, preserved in alcohol, that it was possible for it to live had it been looked after at time of birth. It can be seen at any time at this office.

Spring Township Letter.

Mr. Eddron:—We are still progressing. Mr. Benjamin Rice has recently put up a barn on his property, and his brother John is making preparations to creet a barn on his property sometime after barvest. Several weeks ago John made a folic to hau stome from Howard's Spring for the walls of his barn, and among the stones that were transported there that day a goodly number of them weighed more than half a 1m. As John has many friends here, more persons attended his rolle than were invited. After the hauling was over, all bands partook of one of the best suppers ever gotten up in this vicinity, which was prepared by his estimable daughter Jenine. John belongs to a religious organization entitled, "Peace Unionista." He is not only a member of this seed by procept, but also by example: not only in name, but in heart and hope.
