Oudging by the letters we have received, there must be quite a number of persons in this and Dauphin county who have bought lots in "Christy City."—They all seem to be sadly disappointed in their investment, and anxious to tell what they know.

On opening the school house at Baily's on Sunday a week it was found that the library of the Sunday School had been robbed of about two dozen books, some-time during the previous week. This has happened several times before during the year past.

The following named persons have been appointed by the School Directors to teach the schools in this borough, the ensuing term: — Geo. Barnett, Jr., the high school, Samuel Shaver, second school, Miss Elia M. Burn, the primary, The schools opened to-day, (Monday).

Shermansdale has had a shooting scrape, a young man named Shearer having committed the deed, and a young man named Drawbaugh being the one hit. Shearer says he shot only to scare the parties who were in a boat, and did not intend to hurt any one. No arrest has been made, and perhaps there will be none, as the injury was only slight.

Tom Moore, Esq., editor of the Juniata News, at Port Royal, had a narrow escape from death or terrible injury on Wednesday evening. In trying to get on a moving train, he lost his footing,

but was caught by the conductor, who not able to raise him on the platform, pushed him so that he fell clear of the track. He thus escaped with some few scratches, and a good scare.

Horse Killed .- On Monday last Mr. Singleton Sheaffer, of this place, bought a fine black horse near Ickesburg, and started for home leading the animal behind his buggy. He had gone but a few rods when the horse scared and reared up, falling over backward, killing himself almost instantly. This is quite a loss to Mr. Sheaffer.

An Accident .- On Sunday evening the 14th inst., Mr. Wm. Burrell, of Carroll township, met with quite a mishap. He hitched up a pair of horses ready to go to church, but wanting a strap from the stable gave his son, a boy about eight years of age the lines to hold while he was gone. During his absence the horses started, and turning square around, upset the vehicle, throwing out the boy, breaking his collar bone. The lad was otherwise bruised, and for a time it was feared he was seriously injured. The wagon was a new one, and was something extra in finish and style. It now needs repairs badly.

"Christy City."-We have received full particulars from Carter county, Mo., where this so-called "city" is said to be located. These letters positively assert "that no such place exists, except in imagination. Different clerks of the Court in that county have been asked to record a plot of the place, but have refused .-The last Clerk received \$2 with such a request, but declined to make the record and returned the money to the person sending it.

Any person who expects to buy any lots in that locality can, by calling on us, read letters from parties in Carter county, and find out their opinion of "Christy City."

Incendiary Fire. - On last Wednesday evening, the large and new mansard roof dwelling house, the property of Mr. Joseph E. Crowell, situated on Prospect Hill, in Greencastle, was entirely destroyed by fire. The building was almost completed and Mr. Crowell intended moving into it in a few weeks. The entire structure was in flames when the fire was first discovered and the firemen who were promptly on hand were unable to save it and directed their efforts to the buildings in close proximity belonging to Mr. Addison Imbrie, which they prevented from sharing the same fate. It was without doubt the work of incendiaries, the fire being kindled in different parts of the building. Mr. Crowell had also received letters threatening its destruction. There is an insurance of \$3,000 in the Royal of Liverpool which is but a fraction of the loss sustained.—Franklin Repository.

The prospects for plenty of employment at F. Gardner & Co's are very good. 'Tle said that \$800 are paid out weekly by this enterprising firm. We will venture the a sertion that no other firm has the same pay day as F. Gardner & Co.—Monday. It would be a good idea if other employers would adopt the same day, and thereby avoid much rowdyism on Saturday and Sunday, as is the case in many places we know of.

A little after 8 o'clock Thursday night, the 12th, inst., the stable of Mr. George Sheaffer, on the turnplke, on the northern edge of Dickinson township, was discovered to be on fire. The alarm was at once given, and the neighbors came promptly to the scene, and through their watchfulness the fire was prevented from spreading, but little or nothing was saved from the stable. The loss includes about one and a half tons of hay, some gears and harness and different other items of value. There was two hundred dollars of insurance upon it, the loss will be about three hundred. Nothing is known concerning the origin of the fire, and it is pretty generally attributed to the work of an incendiary.

An accident befell the south-bound train on the South Mountain railroad on Thursday afternoon. The train jumped the track near Hepburn's, a short distance from the borough limits, and the engine and ten or twelve cars were upset down an embankment, the locomotive being turned completely upside down. Some of the cars were badly wrecked. Jacob Albert, the engineer, was scalded severely. No injuries were sustained by the other employees so far as we could ascertain. The accident was caused by some miscreant removing the switch-pin.

Between the hours of twelve and one o'clock on Thursday morning of last week, the store of Dundore & Co., at Walnut, Beale township, was discovered to be on fire. The building, together with the entire stock of goods was burned; also the furniture, watches, and all the clothing of Mr. Dundore and family, who occupied part of the building. The stable attached, and contents were consumed, and a dwelling house family, who occupied part of the building. The stable attached, and contents were consumed, and a dwelling house adjoining, belonging to Reese Evans. Dundore & Co. had an insurance of \$2500 on the buildings, \$3500 on the goods, and \$300 on the stable. How the fire originated is not known. It was first discovered in the ware-room, about thirty feet from the main building. Mr. Dundore and family were apprised that the building was on fire just in time to escape with their lives.

FOR THE TIMES. Beautiful Penmanship.

Mr. Editor—Mr. Benj. Ritter, proprietor of the Union Hotel, Loysville, Perry Co., was presented with a Pen Drawing executed upon fine Bristle board—size 32x28 inches and valuen at \$45. It was executed by Prof. J. C. Miller; of Ickesburg, this county, who is the author of Miller's Compendium of Practical and Ornamental Penmanship. Persons who have examined this beautiful Pen production, and who had the pleasure of examining beautiful penmanship in Philadelphia and other large cities, pronounce this drawing equal to, if not superior to any similar execution that they had ever seen that was executed by a pen. We accord with the Ed's of Penn'a Art Journal, a copy of which we have in our possession, in saying that Mr. Miller, both for design and skill in Pen Drawing ranks one among the finest in the art of Penmanship, that we have in this country.

A and case has just come to light in connection with the De Young-Kalloch affray in San Francisco. A young married lady named Mrs. Litchfield happened to get out of a street car near the scene and just at the time of the shooting of Kalloch by De Young. In the rush of the mob after De Young the lady was overthrown and not less than fifty persons tramped on her prostrate body before she was rescued, so badly injured that death was considered certain. The lady is a grand niece of the late Commodore Vanderbilt was only recently married to one of the richest men in San Francisco, and the pair intended to sail soon for Europe on a pleasure trip.

of the wants of the times. An instrument that is durable, that is substantially made, and has all those qualities of tone which make a first-class plano, can be had from the Mendelssohn Plano Co., 21 East Fifteenth Street, New York, from \$140 to 400. For over thirty-seven years their factory has been producing planos, and adopting every new invention which has proved itself to be valuable. They can be compared by an expert with the instruments of the highest name and fancy price, and the result is surprisingly satisfactory. The Piano is warranted for five years, and no purchaser has ever made a complaint. From personal knowledge and critical examination we can recommend any one to send for a catalogue to the above mentioned transferments. send for a catalogue to the above men-tioned manufacturers. — Frank Leslie's Illustrated Newspaper.

The succeeding volumes will appear about two each month, till the 20 volumes completing the work are issued. That a complete Encyclopædia, first-class in character, and containing more matter than any heretofore published in this country at any price, should be made and sold for the trifling sum of \$10.00, seems so extraordinary, that many who wish it may be true, are very naturally incredulous. The house publish a large list of standard works, all at similarly low prices, and the presence of some of them already in the hands of hundreds of thousands of lovers of good books in all parts of the land, is naturally rapidly transforming the incredulous into patrons and enthusiastic friends of the enterprise. No mystery is made about the cause of the low prices—they are, the reduced cost of manufacture to about one-half what it was a few years ago, the method of sale, direct to the purchaser, saving him the large commissions commonly paid to agents and dealers, and a very large sale. It is worth the cost of a postal card to see their catalogue.
