HOUSE, FARM AND GARDEN.

We invite communications from all persons who are interested in matters properly belonging to this department.

Raising Chickens.

The great point in raising chickens is to keep them eating all the time, to keep their digestive organs continually well supplied. "Short commons" are not economical in chicken raising.

Indian meal dough we banished from our poultry yards long ago, and on no conditions would we permit young chickens to be fed with it.

When in the days gone by, we used to feed the chickens with the traditional Indian meal dough, we always counted on losing a large percentage of them.

Of course large chickens, those which are ten or twelve weeks old, do not need such fine ground corn, but the young birds do.

WE would respectfully invite the patronage of the farmers, and the public generally, as the HIGHEST PRICES the market will afford, will be paid for all kinds of...

How a Woman Peeled Onions.

There is more than one way to skin onions, as well as cats it appears "Bob the sea cook," spins the following instructive yarn in the New York Times of Sunday:

She came on board as pretty as a daisy and as sweet and fresh as an elegant make up could make her. There was chattering aft, on the yacht, as to what they would have for dinner, and it was agreed, for fun, that it was chowder, each one to do something for the same.
